## NATURE OF PROSPECTIVE TARGET GROUP OF LEARNERS:

Basically the programme focuses towards those persons who are first generation learners, self-employed & having poor educational background. Skill enhancement and knowledge acquisition are the very important aspects of any job. Skills and knowledge are perhaps the only two factors that propel your career to the greater heights. One way for a working professional to acquire new skills and knowledge is to grab every learning opportunity thrown at them. The other way is to pursue course and gain the skills in a shorter span of time. Working professionals can benefit immensely from B.A. course.

## LEARNING MODE TO ACQUIRE SPECIFIC SKILLS AND COMPETENCE:

Education gives you new skills and knowledge to enhance your current career. After working in the office for two or three years, and gaining adequate experience, you will realize that you were in fact stuck in a comfort zone. By doing these courses, you will soon be forced out of your comfort zone and learn how to deal with the latest issues. This will give you the opportunity to constantly challenge and push yourself in order to continuously improve.

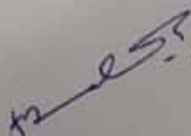

- Develop reading, writing & speaking skills.
- Learning experiences and opportunities during their studies.
- Providing Job opportunities by preparing for Competitive Examinations.

## COURSE OUTLINE OF B.A., B.Com. & B.Sc.

### Quality assurance mechanism and expected programme outcome:

Quality assurance comprises the policies, procedures and mechanisms which that specified quality specifications and standards are maintained. These policies, procedures and mechanisms include continuous revision and monitoring activities to evaluate aspects such as suitability, efficiency, applicability of all activities with a view to ensure continuous quality improvement and enhancement. The quality management recommendations are intended to create clear and uniform frameworks to support independent quality management on part of the education providers.

These programs "ensure the development of core competencies including, written and oral communication, quantitative reasoning, information literacy, and critical thinking."
