Feedback Analysis 2021 – 2022

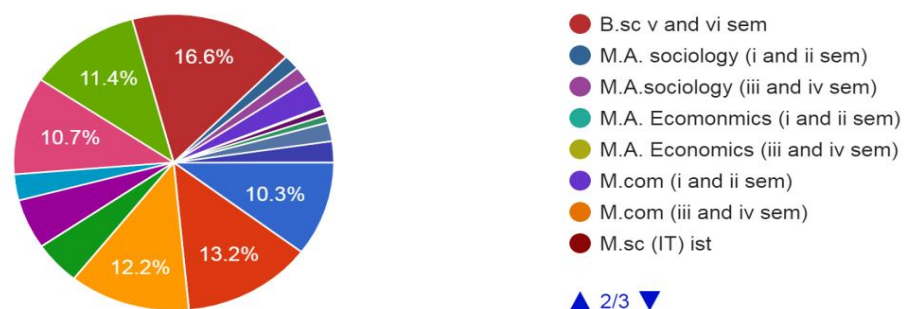

Analysis of Student Feedback Form 2021 – 2022

The feedback of students for the session 2021-22 was taken by the feedback committee. For this purpose an open ended questionnaire was prepared. The feedback contained twenty three statements which students had to respond to. Total seven hundred and thirty seven respondents have responded to this questionnaire. The detailed analysis of this questionnaire is as under

The first three points were Email, name and contact number. The next question was about the class in which students study. Students have to select the correct option from the drop down list. The response is shown in the following pie diagram.

Class

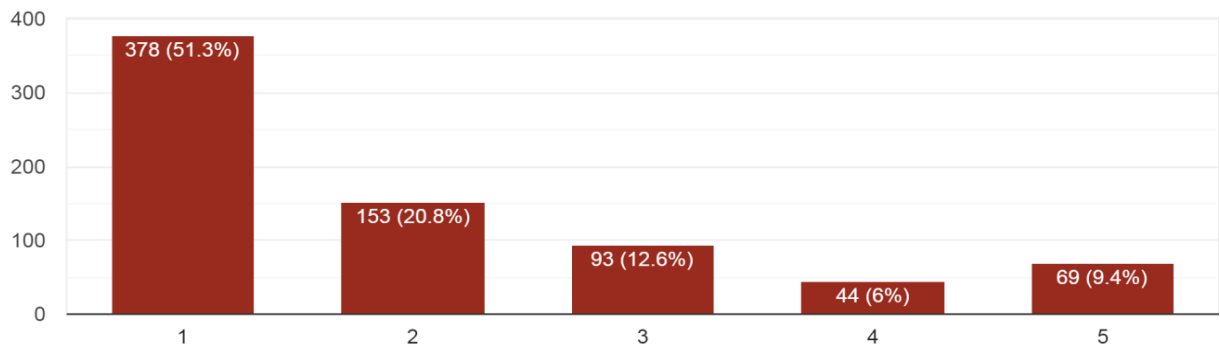

737 responses

It is visible that one hundred and twenty two students were from B.Sc. V and VI sem. 13.2 % of the students were from BA III and IV sem. Ninety students were from BA V and VI sem. While 11.4 % students were from B. Sc. II and IV sem., forty students were from B. Com. III and IV sem. All the post graduate students responded to said feedback.

The next statement was the name of the teacher. All the permanent teachers, AD hoc as well as contributory teachers feedback was duly received. The next statement which students have to respond to on likert scale is feedback “The teacher covers the entire syllabus”. The response above statement is as under

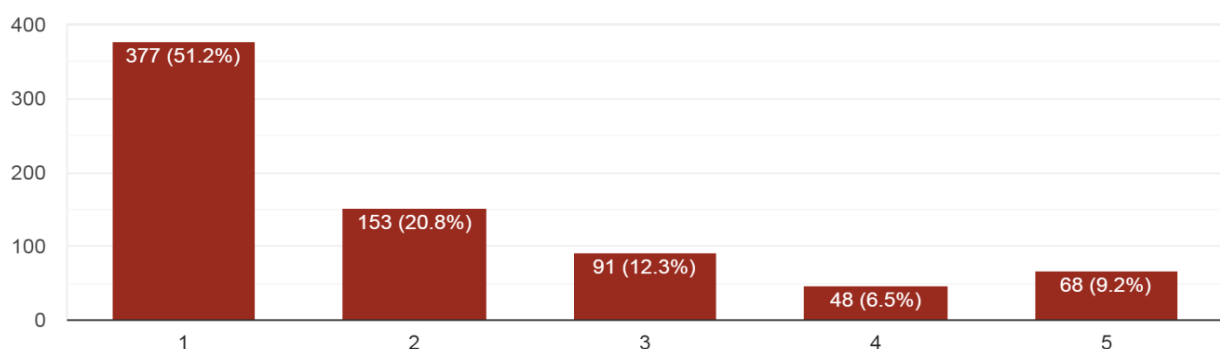

The teacher covers the entire syllabus
737 responses

It is clear that three hundred and seventy eight respondents strongly agree with the statement while least 9.4 % strongly disagree with the statement. 12.6 % of respondents have a neutral opinion over it.

The next statement which respondents have to respond to five point likert scale was about syllabus knowledge and the communication. The following graph shows the response of the said statement.

The teacher has deep knowledge of syllabus and commuincates it clearly
737 responses

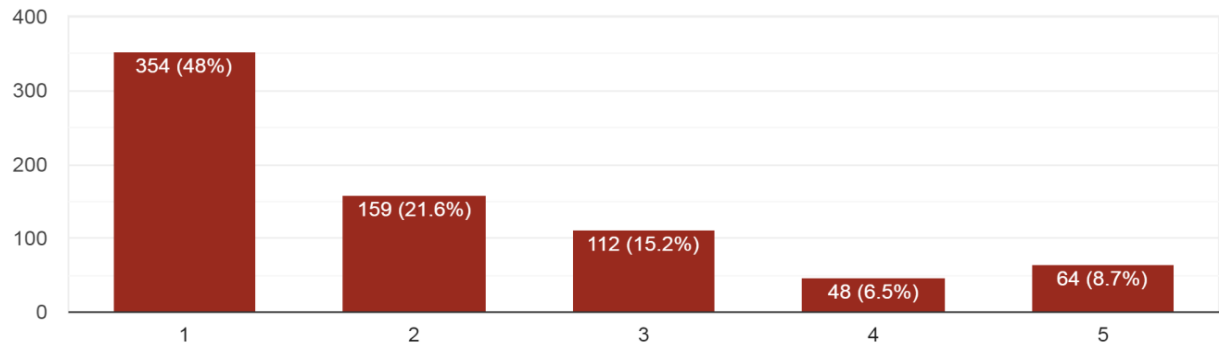

Three hundred and seventy seven students have strongly agreed with the statement. While 20.8% agreed with the statement, Sixty eight respondents strongly disagreed with the statement.

The next statement was about whether the teacher while teaching encourages students. The response to this is shown in following graph

Teachers inspires me while teaching

737 responses

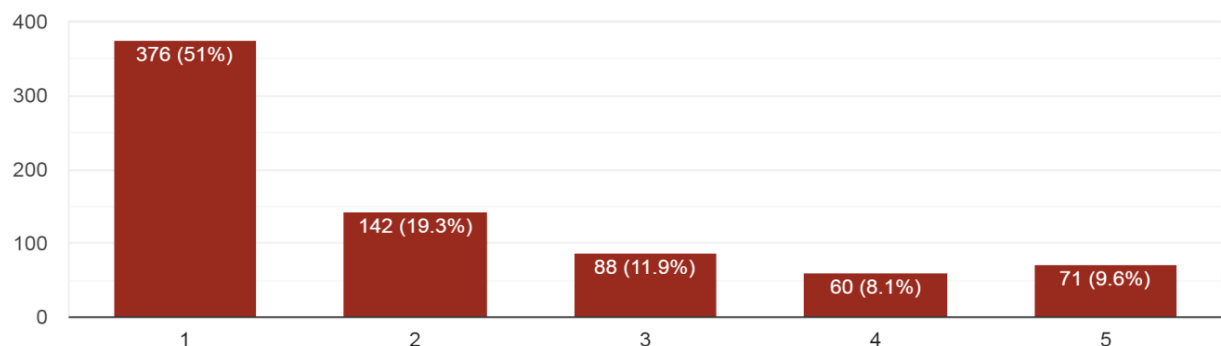

It is clear that three hundred and fifty four respondents strongly agreed with the statement. While 21.6% responses agreed with the statement. Only sixty four respondents strongly disagreed with the statement.

The next statement was “Teacher is punctual to the class and completes the course”. Response received is as under

Teacher is punctual to the class and completes the course

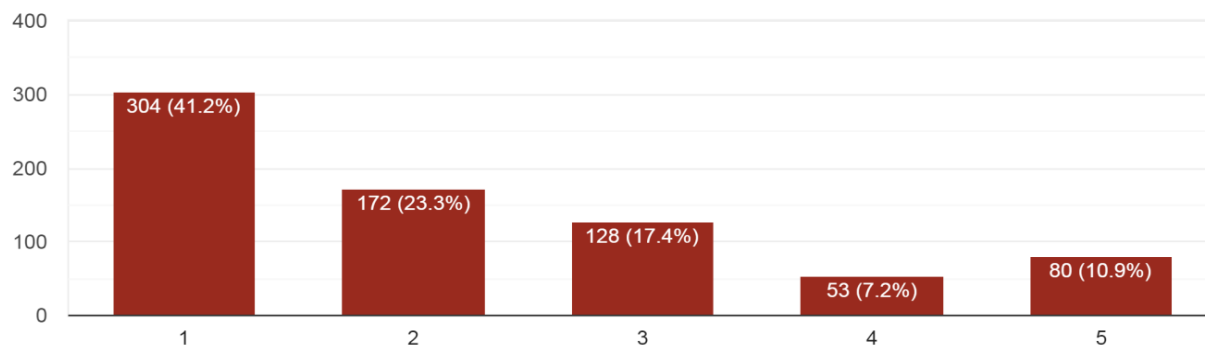

737 responses

More than fifty one percent of students strongly agree with the statement. While one hundred and forty two students agree with the statement, seventy one respondents strongly disagreed with the statement.

The teacher provides guidance/counseling in academic and non-academic matters in/out side the class

737 responses

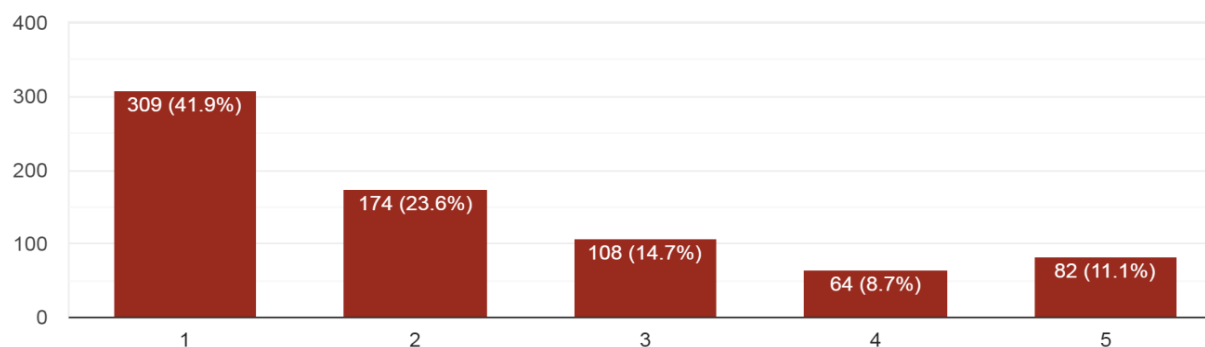

The above graph shows the response of students to the statement “The teacher provides guidance/counselling in academic and non-academic matters in/outside the class”. It is clear that three hundred and four students strongly agreed with the statement. While one hundred and seventy two agree with the statement. Eighty students strongly disagreed with the statement.

The use of modern technology like PowerPoint presentations, handouts are always welcomed by the students. The student response to this is as under

The teacher uses modern teaching aids/gadgets, handouts, suggestion of references, PPT, web-resources (Any other)

737 responses

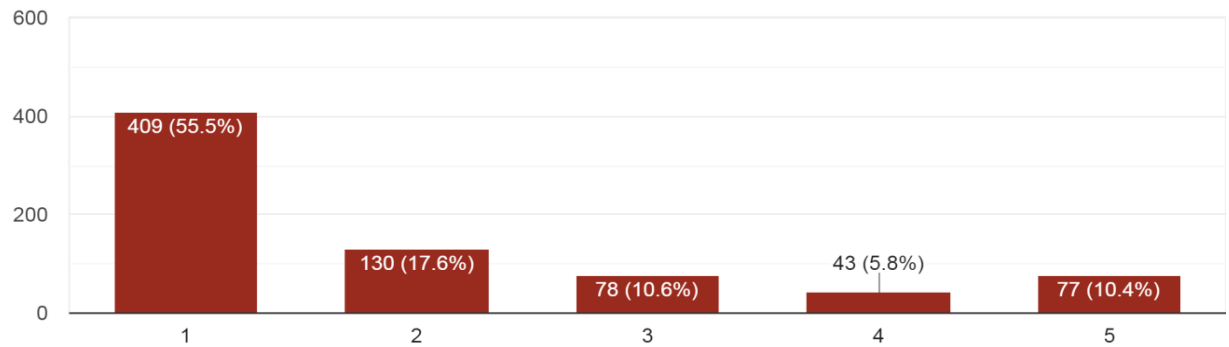

It is clear that three hundred and nine students strongly agreed with the statement. While one hundred and seventy four respondents agreed with the statement, eighty two strongly disagreed with the statement.

The attitude of teachers towards students was questioned in the next statement. The response is as under

The teacher's attitude toward the students is friendly and helpful

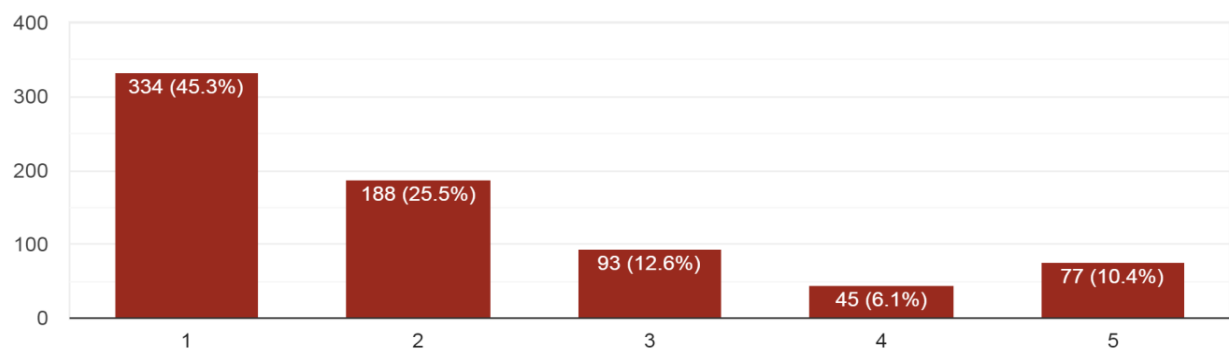

737 responses

55.5 % strongly agree that teachers' attitude towards them is friendly and helpful. Seventy eight students have a neutral view on this and seventy seven students strongly disagreed with the statement.

Teacher undertakes Periodical assessments as per schedule

737 responses

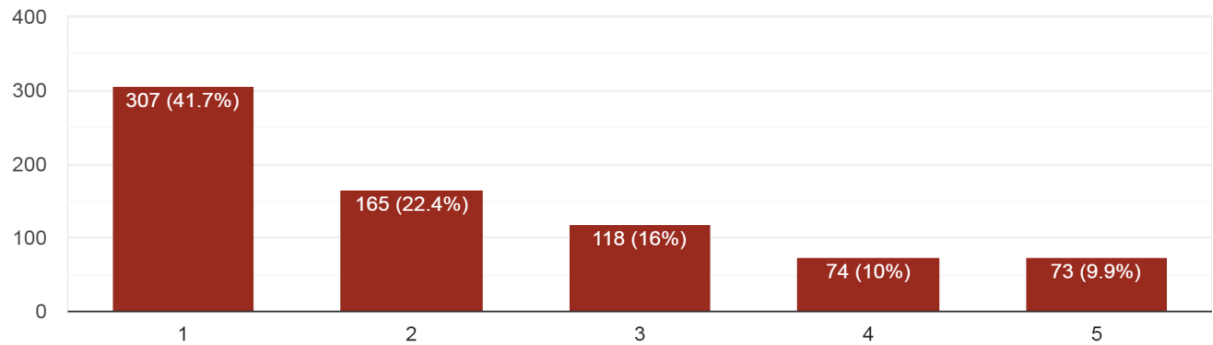

The periodical assessments are taken in the form of class tests, examination, assignments etc. The response shows that 45.3% of respondents strongly agreed with the statement. 25.5 % of respondents agreed with the statement. 10.4 % of respondents strongly disagreed with the statement.

The non-traditional methods like quizzes, seminars, assignments, classroom presentations create a great deal of interest among students. Hence, the next statement was about it. The response is as under

The teacher uses non-traditional methods of evaluation like Quiz, Seminars, Assignments,Class room presentation/participation(Any other)

737 responses

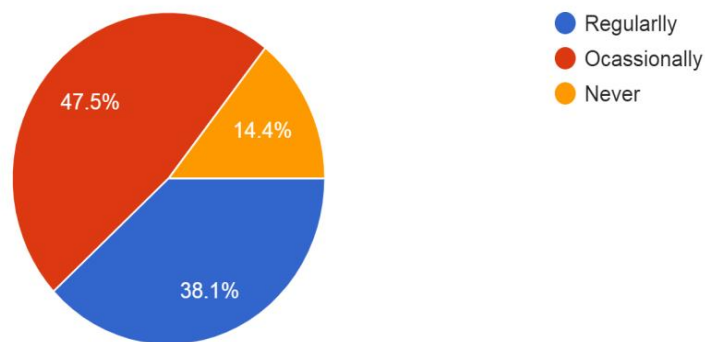

It is clear that three hundred and seven responses strongly agreed with the statement. While 22.4 % respondents agree with the statement, seventy three strongly disagreed with the statement.

The library is an integral part of any institute. The frequency of visits to the library is judged in the next statement. It is clear that 38.1% regularly visit the library. 47.5 % occasionally visit the library. One hundred and six students reported that they never visit the library.

How often do you visit the Library

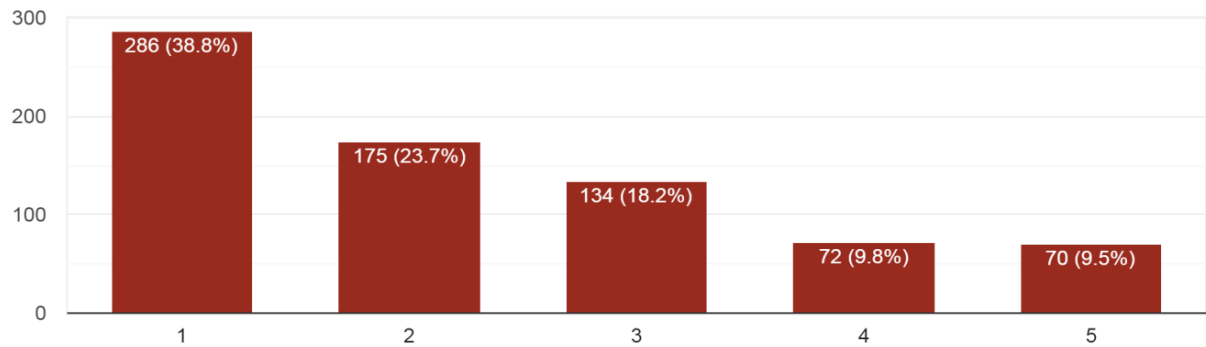

737 responses

The availability of books in the library is judged in the next statement. The response is as under

The required number of books in your Subject are available in the Library

737 responses

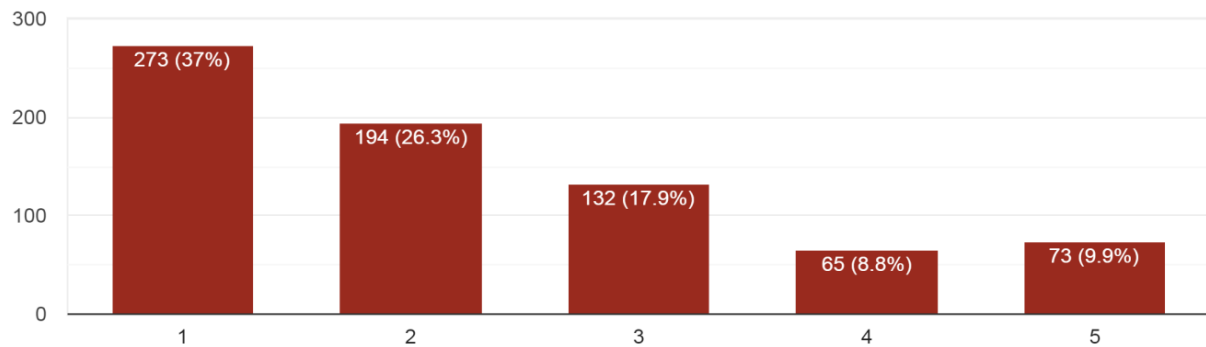

Two hundred and eighty six students agreed with the statement. It is followed by one hundred and seventy five students who agreed with the statement, while seventy students strongly disagreed with the statement.

Respondents' opinion on the availability reading space in the library is shown as under

The library has adequate reading space.

737 responses

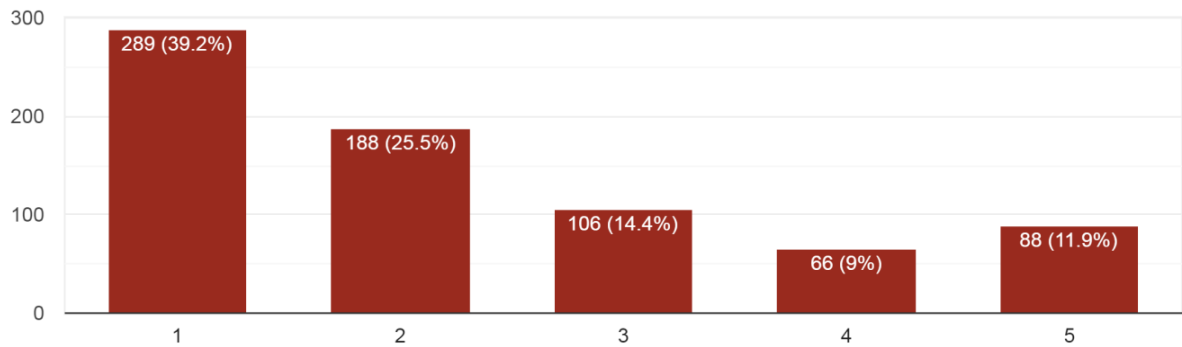

It is clear that two hundred and seventy three respondents strongly agreed with the statement. After that one hundred and ninety four students agreed with the statement, while seventy three responses strongly disagree with the statement.

The cooperation offered by the library staff is judged in the next statement.

Libraray staff is coperative and helpful

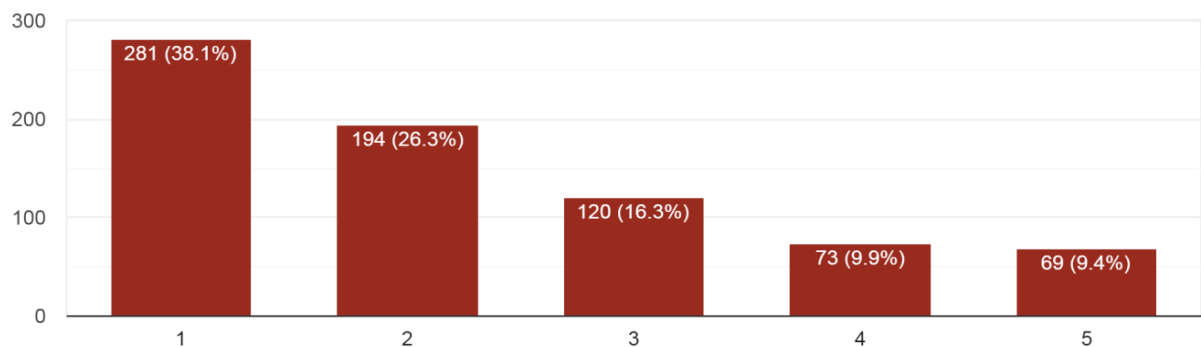

737 responses

The response shows that two hundred and eighty nine students strongly agreed with the statement. One hundred and eighty eight students agree with the statement, while 11.9% strongly disagreed with the statement.

Office staff is helpful in administrative matters

737 responses

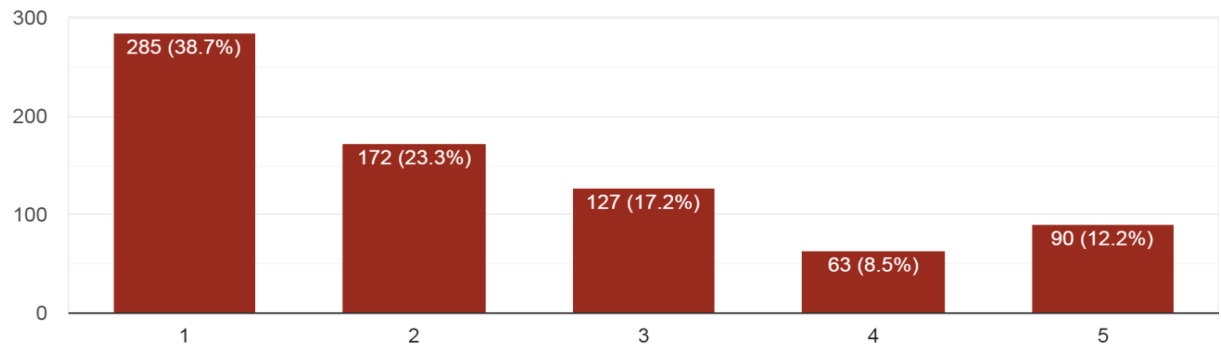

The opinion of respondents on the working of office staff is judged in the next statement. The above graph shows that two hundred and eighty one respondents strongly agreed with the statement. 26.3% of respondents agree with the statement. While one hundred and twenty have neutral opinions about it.

The next statement was “The classrooms are cleaned regularly”. The response shows that 38.7% strongly agree with the statement. While 23.3 % agree with the statement. While ninety student respondents have strongly disagreed with the statement.

The classromms are cleaned regularly

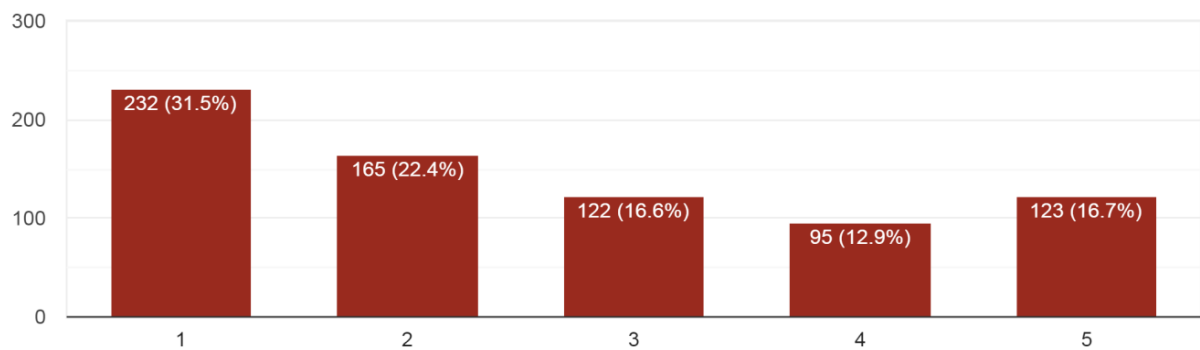

737 responses

In the next statement an opinion on the cleanliness of the toilet was sought. The response is as under

Toilet of college are clean

737 responses

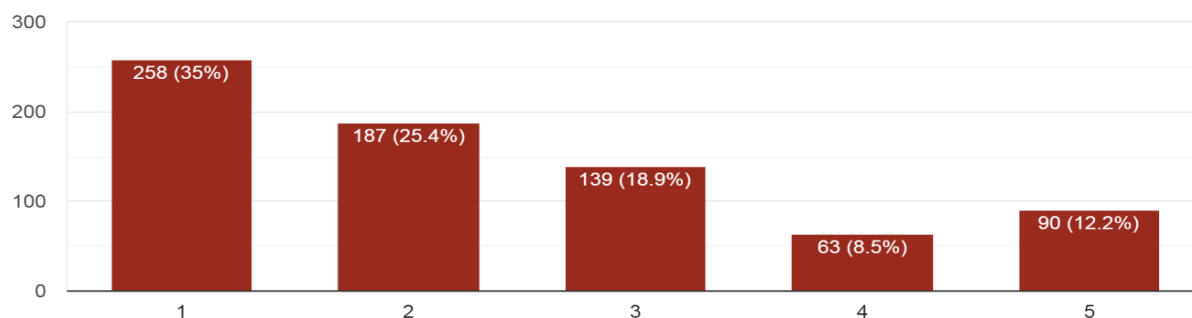

31.5 % of respondents strongly agree with the statement. While one hundred and sixty five agree with the statement. One hundred and twenty three strongly disagreed with the statement.

The opinion of respondents regarding the availability and quality of drinking water was sought in the next statement. The response is as per below

College provides clean and adequate drinking water

737 responses

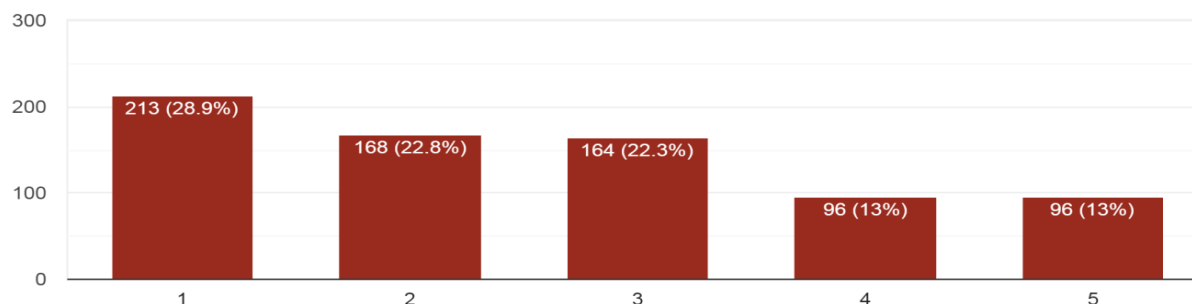

The response is in the affirmative mode. Maximum 35 % believe that the availability and quality of water is good. While one hundred and eighty seven students strongly agreed with the statement.

The college has its own canteen. The perception of students regarding it was sought in the next statement. The response shows that two hundred and thirteen students have strongly agreed with the statement. One hundred and sixty eight students agreed with the statement.

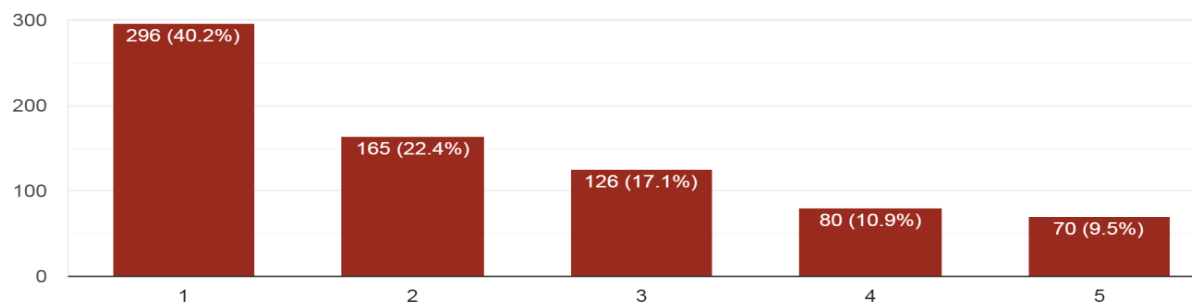

The food served in the canteen is of good quality

737 responses

The college has proper labortatry facilities

737 responses

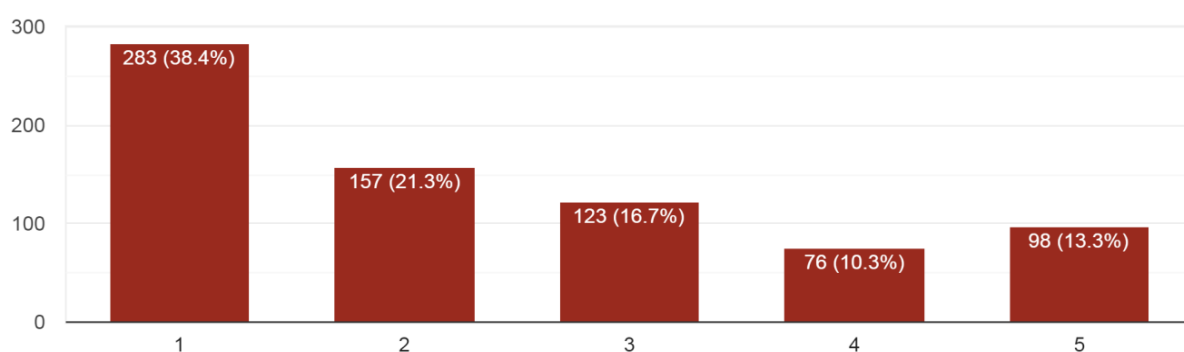

The above graph shows the response of students towards laboratories of the college. It is visible that two hundred and ninety six students strongly agreed with the statement. It is followed by 22.4% responses who agreed with this statement, while seventy students strongly disagreed with the statement.

The NSS and NCC units of the college work for the overall development of students. The opinion of students was analysed in the next statement. The graph shown below shows the response received therewith

You are satisfied with the working of NSS and NCC unit

737 responses

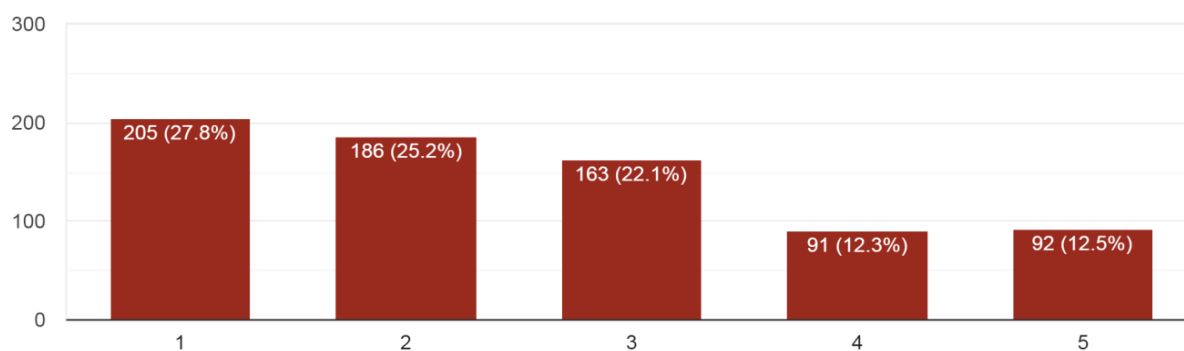

The 38.4 % students strongly agree with the statement that they are satisfied with the working of NSS and NCC units. One hundred and fifty seven students agree with the statement.

The college has its own placement cell. The awareness of it was questioned in the next statement. The response is given below

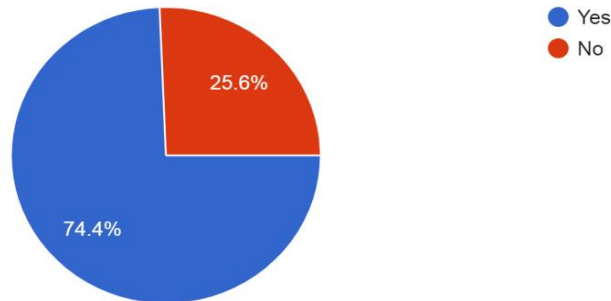

you aware of the functioning of a placement cell in our College

737 responses

The response shows a mixed response. However two hundred and five students out of seven hundred and thirty seven students are aware of the placement cell.

you are aware that the college has complaint box
737 responses

The above pie diagram shows the response of students towards the awareness of the complaint box. It is clear that 74.4 % of respondents i.e. five hundred and forty eight students have given affirmative response.

In the last feedback, suggestions to improve college were asked. Some of the prominent suggestions are listed below

- ❖ Keep the college ground clean.
- ❖ Increase the parking facilities.
- ❖ Provide more space in Library.
- ❖ Focus on creating spaces where students can come together.
- ❖ Increase the cultural activities.

Also there are few students who wish for improvements in drinking water, canteen and parking areas, and ventilation in classrooms.

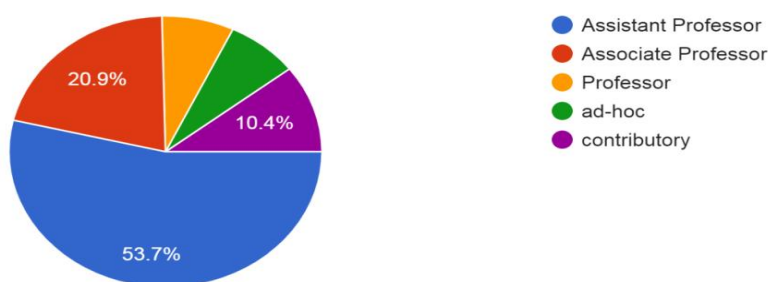

Analysis of Teacher Feedback Form 2021 – 2022

The feedback from the teachers of Seth Kesarimal Porwal College of Arts and Science and Commerce, Kamptee was collected. Sixty-seven respondents have responded to the questionnaire. It included professors, associate professors, and assistant professors. Non-grant faculties were also duly considered in the feedback analysis. The questionnaire consists of basic demographic questions, and teachers' opinions regarding various college facilities were also asked. The questionnaire ended with suggestions from teachers.

The first three questions include names, mobile number and email address.

The present position of the teaching staff was included in the first question. The response received there with is as follows.

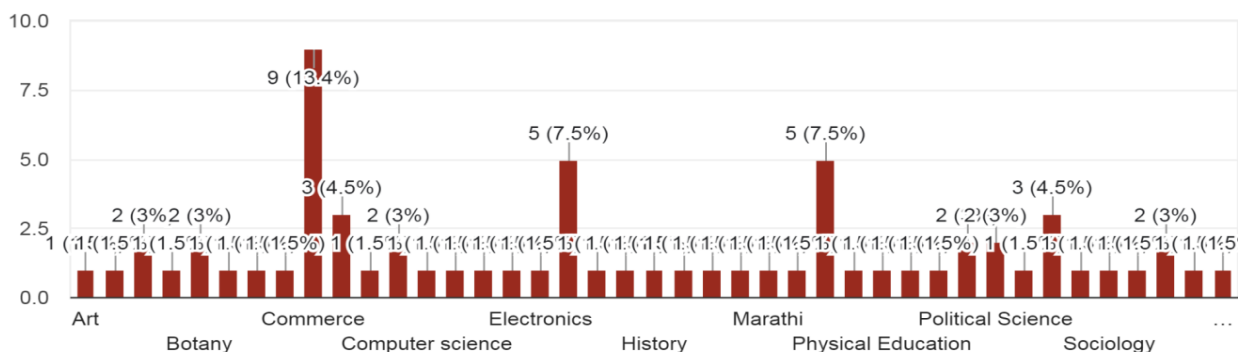

Designation
67 responses

It is clear that more than fifty-three percent of teachers were assistant professors. Nearly twenty-one i.e. fourteen percent were associate professors. Five teachers from the professor's grade participated in the feedback. While five and seven belong to Adhoc and contributory teachers.

The teachers from all three steam i.e. arts, science, and commerce participated in the feedback. The department-wise enrolment in the feedback is as per below.

Department
67 responses

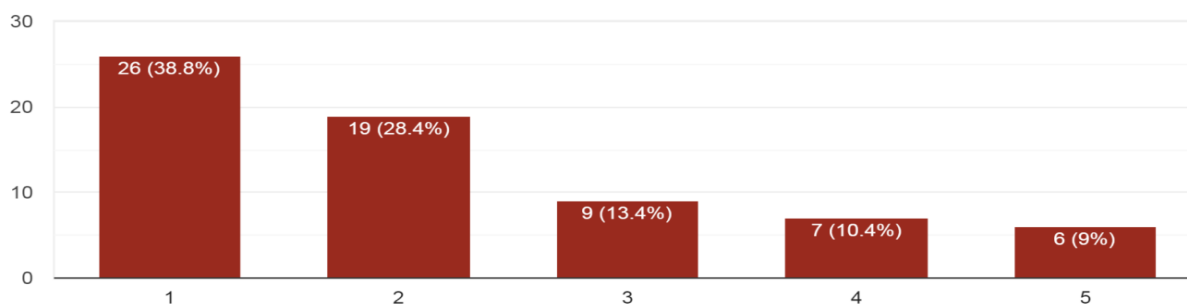

It is visible that a maximum of nine teachers were from the commerce department, followed by the department of English and Microbiology having five teachers enrolled. The rest of the departments having more than two respondents include the computer science department.

The next question which was put before the respondents was about the number of years of experience. The response received states that the maximum numbers of teachers have experience between ten to twenty years, while three teachers have experience of more than thirty.

In the middle segment of the questionnaire, the opinion of teachers on various statements was asked. The respondents were asked to give a response on a five-point scales ranging from strongly agree to strongly disagree.

The first statement in this segment was “The courses/syllabi taught by me have a good balance between theory and application”. The response received is as under

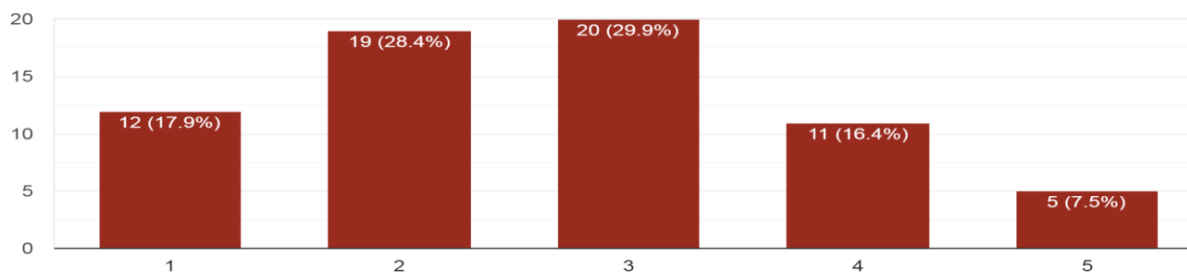

The courses / syllabi taught by me have a good balance between theory and application
67 responses

It is seen that twenty-six teachers strongly agreed with the statement. Nineteen agreed with the statement, while six teachers have an adverse opinion about the statement.

The next statement was about the efficiency of content that teachers taught regarding industry requirements.

Contents of curriculum are as per the industry requirement
67 responses

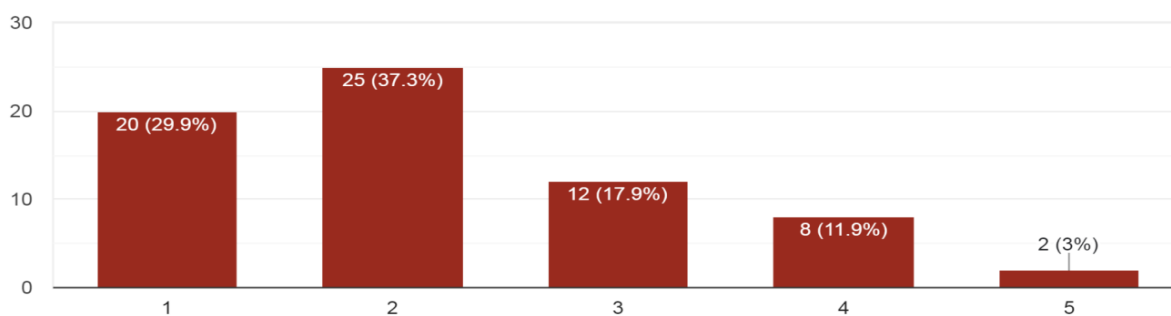

The response received regarding this statement shows that twelve teachers strongly agreed with the statement. A maximum of twenty teachers have a neutral opinion over it. While nineteen teachers agreed with the statement.

The next statement was the objective of the syllabus. The majority of respondents i.e. sixty-seven have either strongly agreed or agreed with the statement. Two teachers strongly disagreed with the statement. The graphical representation is as below

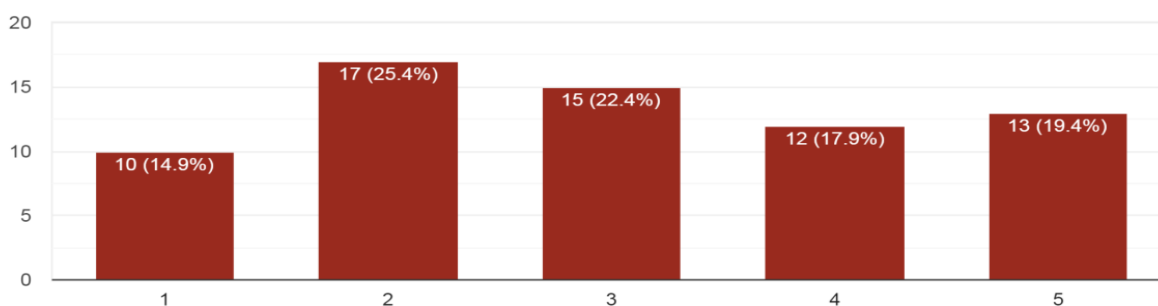

The objectives of the syllabi are well defined

67 responses

ICT facilities available in the college are adequate and satisfactory

67 responses

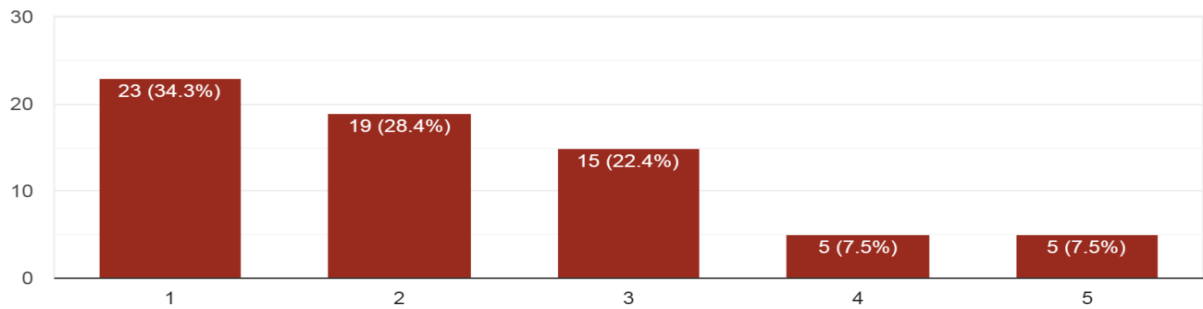

The next statement was about the ICT facilities available in the college. The above graph shows scattered responses. A maximum of seventeen teachers agreed with the statement. It is followed by fifteen having a neutral opinion. Twenty-five teachers disagreed or strongly disagreed with the statement.

The urge to improve skills is the primary goal of any teacher. Hence to judge the support of the college the next statement was “The College provides adequate opportunities and support to faculty members for upgrading their skills and qualifications”.

The college provides adequate opportunities and support to faculty members for upgrading their skills and qualifications

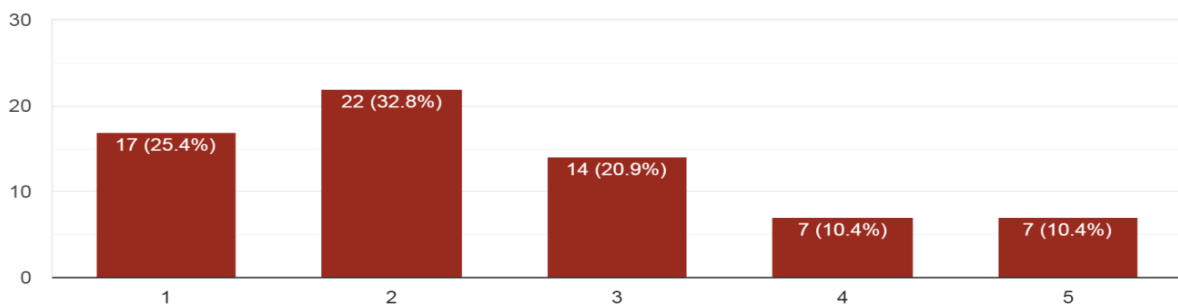

67 responses

It is evident from the above graph that the majority i.e twenty-nine and nineteen either strongly agree or agree with the statement. Five teachers have reported strong disagreement with the statement.

The environment in the College is conducive to teaching and research

67 responses

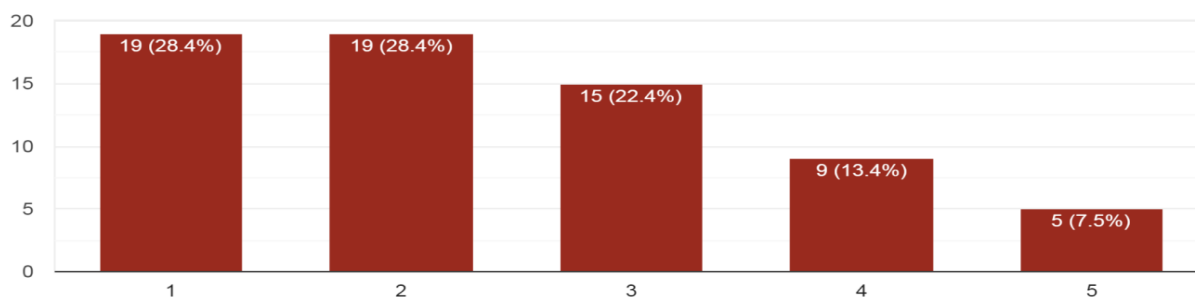

The next statement is about the environment in the college with respect to teaching and research. Here also we can see that a maximum of thirty-two percent of teachers agree with the statement. While seventeen teachers strongly agree with the statement, seven teachers each either strongly disagree or disagree with the statement.

The opinion of teachers regarding prescribed books and journals was sought in the next statement. The response is given in the following graph.

The books/journals etc. prescribed / listed as reference materials are relevant, updated and cover the entire syllabi

67 responses

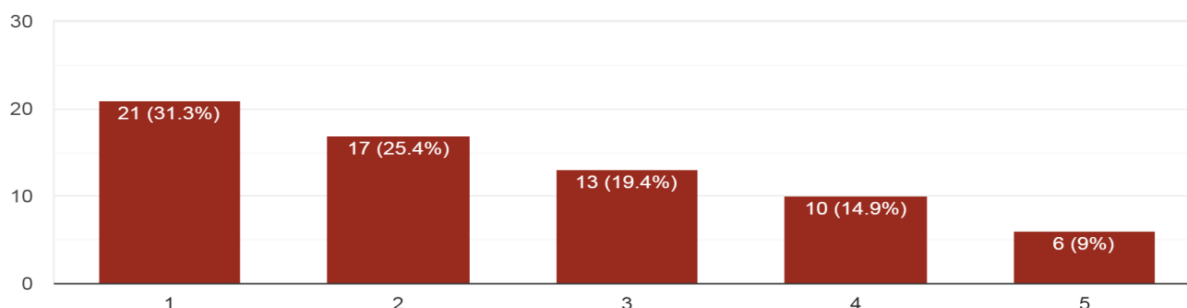

It can be seen that nineteen teachers have put strong agreement or agreement with the statement. While fifteen teachers have a neutral opinion of the statement, the least i.e. five teachers have strong disagreement with the statement.

The library is an important resource for not just students but for teachers also. Hence the next statement was about this vital source.

In library the prescribed books are available in sufficient numbers

67 responses

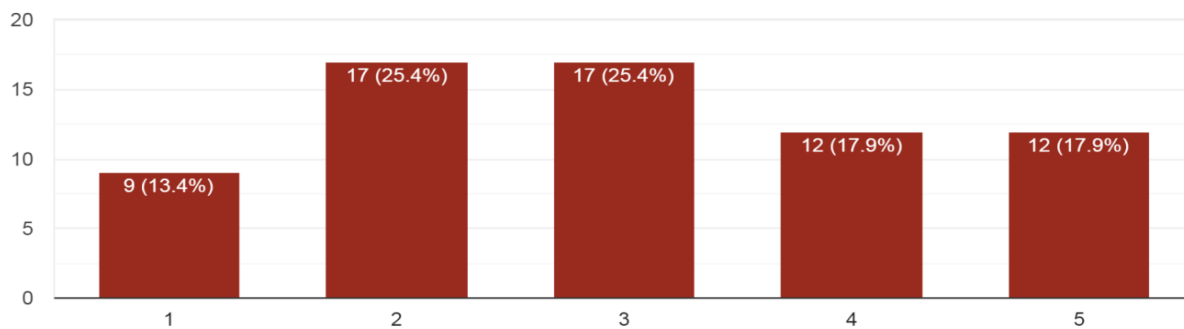

The opinion shows that twenty-one teachers strongly agree with the statement. Thirteen teachers have a neutral opinion of the statement. Six teachers strongly disagree with this statement; they seem to have the opinion that the book of their subject needs to be increased.

The next statement was about classrooms, toilets, and washrooms. The response received was a diversified one.

Classrooms, toilets/washrooms are clean and well maintained

67 responses

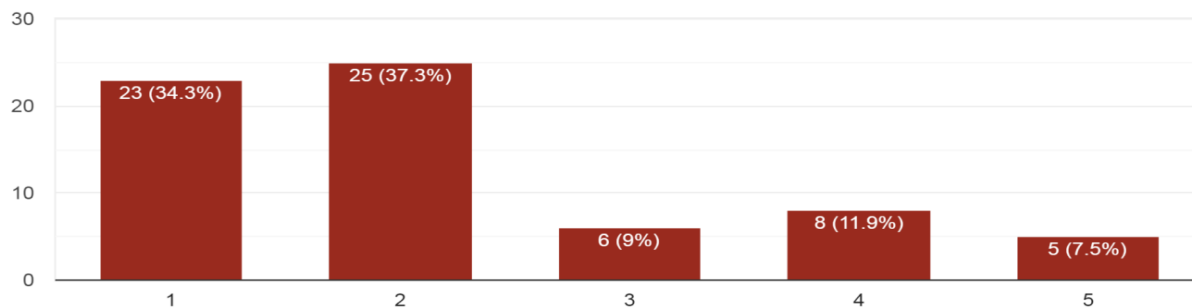

It is clear that nine teachers strongly agreed with the statement. While seventeen teachers each either agree with the statement or have a neutral opinion. Twelve teachers strongly disagreed with the statement.

The freedom of teachers in their field was judged in the next statement. The statement was “I have the freedom to adopt new techniques / strategies of testing and assessment of students”. The response is like this:-

I have the freedom to adopt new techniques / strategies of testing and assessment of students

67 responses

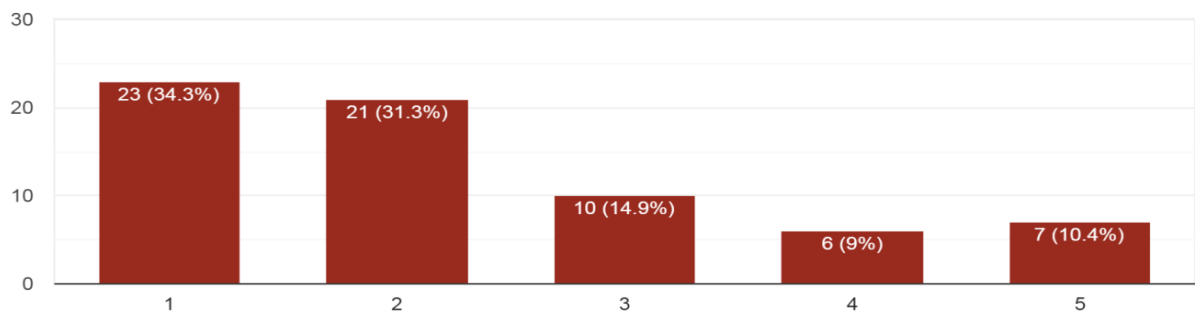

It is seen that twenty-three teachers felt they have full freedom. While five teachers strongly disagreed with the statement, eight teachers disagree with the statement.

The opinion of teachers regarding admission and examination is judged in the following statement. The graph given below gives the opinion regarding this

The admission and examination process is satisfactory

67 responses

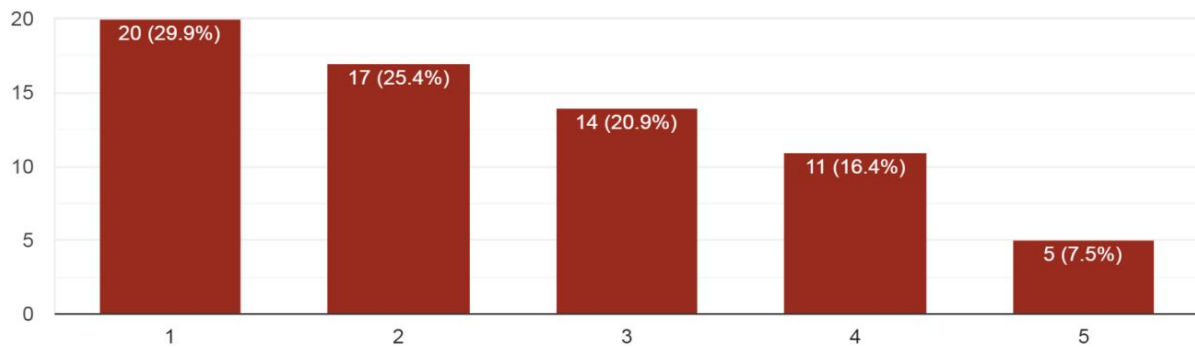

More than sixty-five percent of teachers seem to have an affirmative opinion of the statement. Seven teachers reported that they felt that there is a need for improvement.

Research is the backbone of higher education teachers. Novel research published in quality journals needs a lot of dedication and hard work. The reward is an effort to motivate teachers to publish novel work.

The reward and recognition is given for novel research

67 responses

The above graph shows that fifty-five percent of teachers have given a positive response, while five teachers strongly disagree with the statement.

In the concluding portion of the feedback questionnaire suggestions from esteemed teachers for the overall development of the college were asked. Some of the prominent suggestions in this regard are listed below

- ❖ There should be more facilities for research.
- ❖ The college needs to have new technology and provide a free internet connection to the students.
- ❖ Auditorium of our college is small for hosting various programs.
- ❖ The ICT facilities should be strengthened in college.
- ❖ Funds for the development of the laboratory are not sufficient.

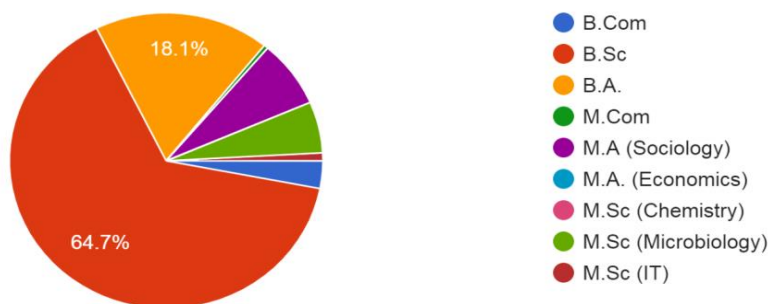

Analysis of Parents Feedback Form 2021 – 2022

The parents are vital stakeholders in any institute. They are the ones who send their wards for a prosperous life. The feedback from the parents was taken. For collecting feedback a Google form was designed and distributed to the parents. For the session 2021-2022 feedback from two hundred and thirty-two parents was received. The detailed analysis is given under

The feedback form is of three segments. The first segment includes the email address, name, address, contact number, and name of the child studying in the college. It was compulsory for respondents to fill in these responses hence all the information was duly received.

The response of parents about “the class in which their child studies” is given in the following pie diagram.

Course in which your child is studying
232 responses

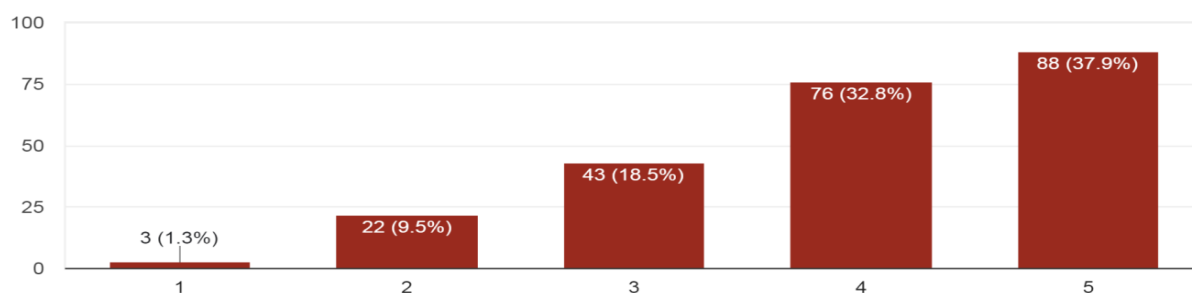

The majority of responses i.e. sixty-four percent stated that their ward studies in B.Sc. It was closely followed by arts and commerce faculty students.

In the middle segment various statements were put before the respondents' parents. Their response was collected on a five-point Likert scale ranging from strongly agree to strongly disagree.

The first statement was “The overall environment of the college is encouraging for the all-round development of your child”. The following graph shows the response received

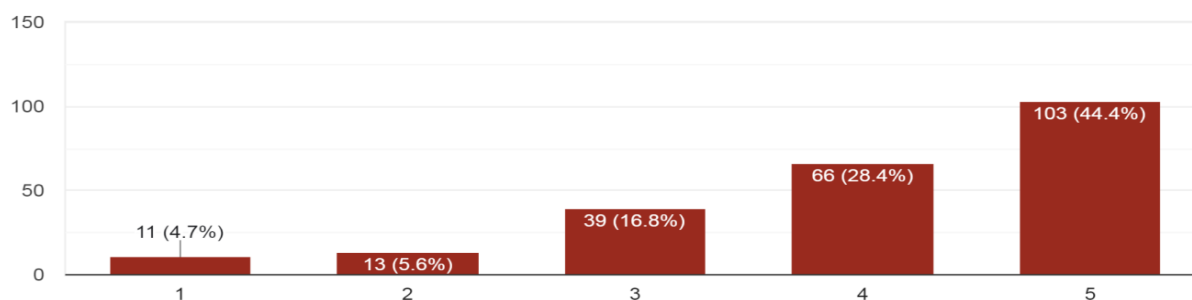

The overall environment of the college is encouraging for the all round development of your child
232 responses

It was pleasant to see that nearly thirty-eight percent of parents strongly agree with the statement, which is closely followed by nearly thirty-three percent who agree with the statement. Only one percent of parents reported that they strongly disagree with the statement.

The college authorities are making the utmost effort to undertake a fair and transparent admission process. For this purpose, special software was also purchased. In order to see the opinion of parents regarding the admission process a statement was framed, the response received is described with the help of the following graph

The admission process undertaken by the college is fair and transparent
232 responses

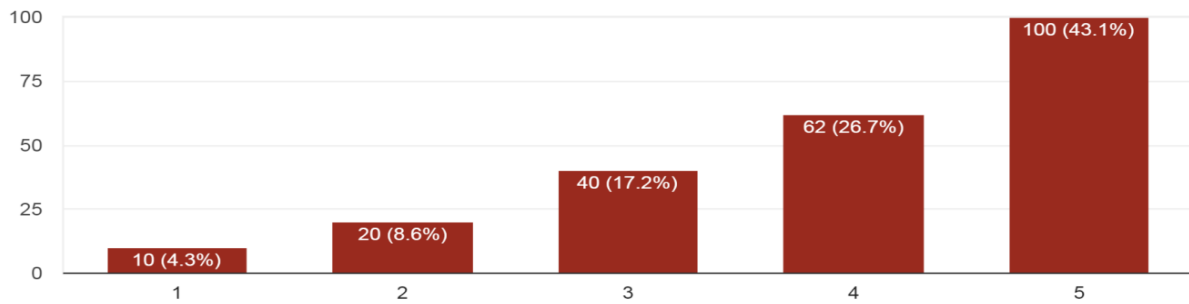

Out of two hundred and thirty-two respondents majority i.e. hundred and three respondents strongly agreed with the statement. Sixty-six parents agreed with the statement, while thirty-nine parents have a neutral view.

The perception of parents regarding academic discipline in the college was sought in the next statement. The response received is shown in the following graph

The college has good academic discipline

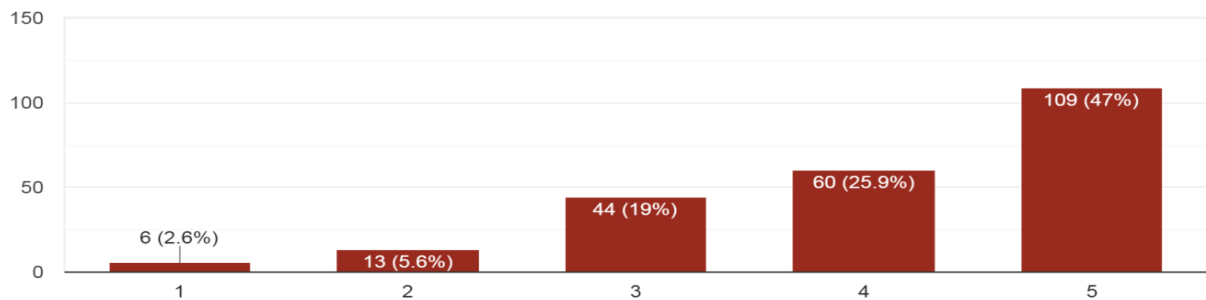

232 responses

A hundred respondents' parents strongly agreed with the statement. Sixty-two parents agree with the statement. At the same time, ten respondents' parents seem to have strong negative perceptions regarding academic discipline.

The examination system of the college is fair

232 responses

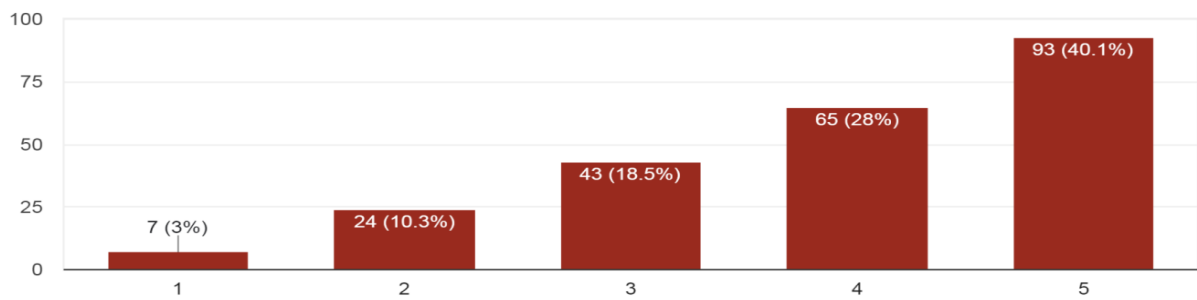

The examination is conducted by the college on behalf of the university. The college authorities are making valiant efforts to improve the examination system. Forty-seven respondents strongly agree with the statement. Nearly twenty-six percent of respondents agree with the statement.

The opinion of parents regarding the infrastructure available in college was sought in the next statement. The following graph denotes the response received in this manner.

The college has good infrastructure facilities

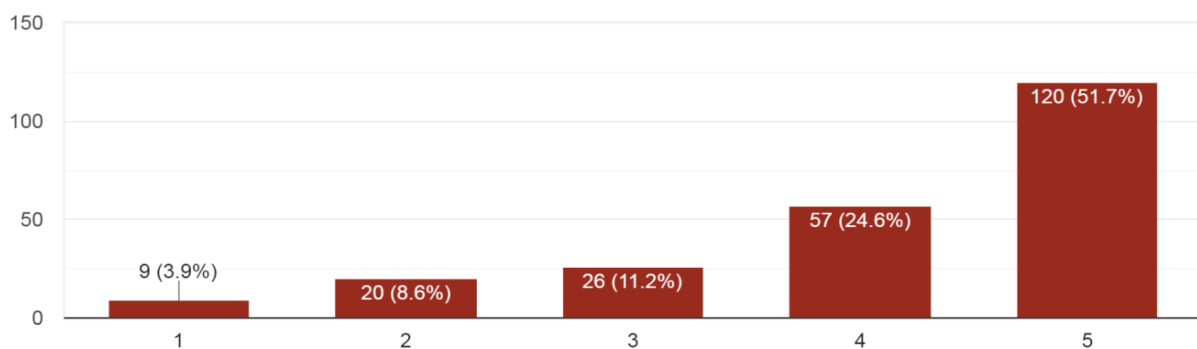

232 responses

Ninety-three respondents strongly agree with the statement. Sixty-five respondents agree with the statement. Forty-three respondents have a neutral opinion.

The college has good learning resources like library, internet and computers

232 responses

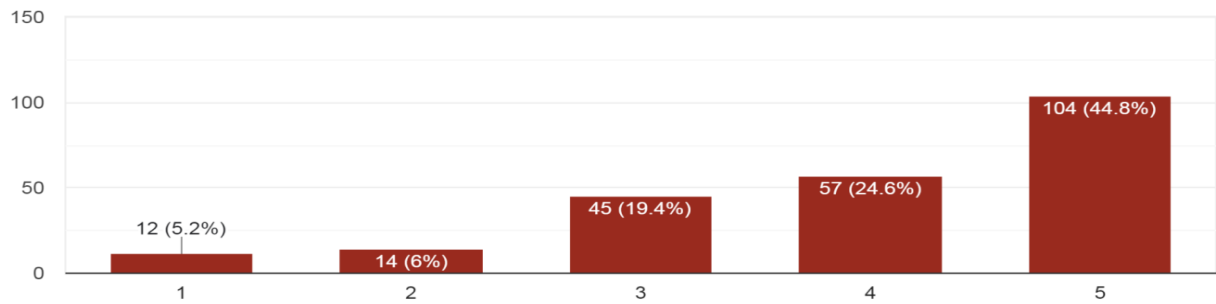

It seems to be that one hundred and twenty respondents strongly agree that the college has an adequate library, internet, and computer facility. Fifty-seven respondents agree with the statement. Only nine respondent parents strongly disagree with the statement.

The opinion of parents regarding the work culture was sought in the following statement. The opinion of parents seems to be a positive one. Hundred and four respondents strongly agree that the college has good work culture. Fifty-seven agree with the given statement. While twenty-six are of negative opinion.

The work culture in the college is healthy

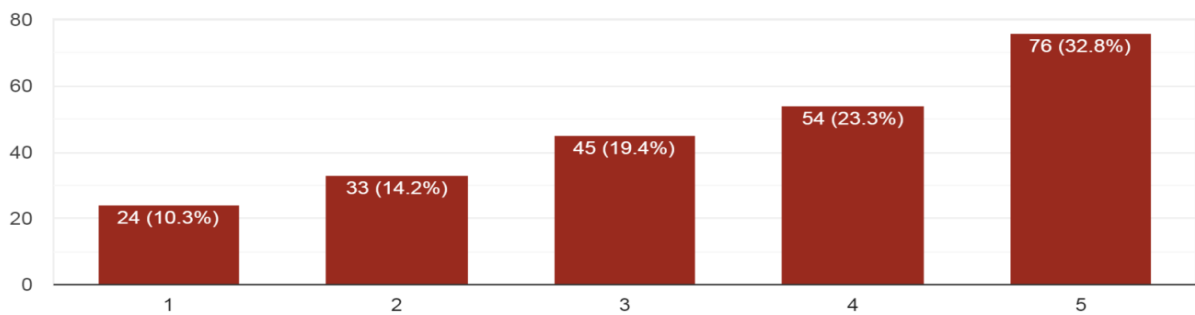

232 responses

The college has a separate and efficient canteen facility. The views of parents regarding cleanliness and quality of the product offered were asked in the next statement.

Canteen facility in the college is clean and of good quality

232 responses

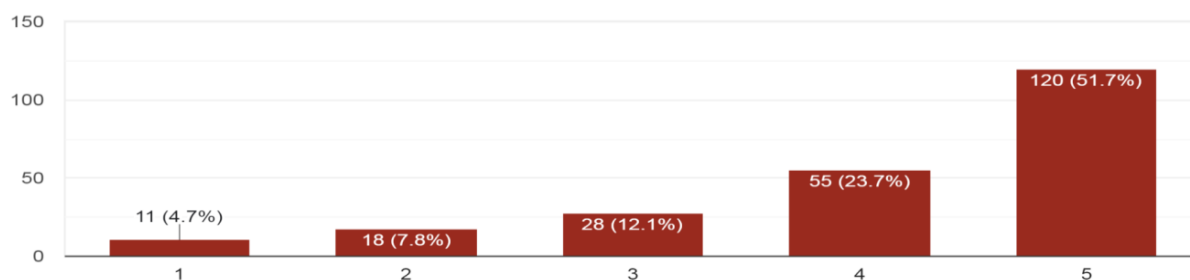

Out of two hundred and thirty-two respondents, maximum of seventy-six respondents strongly agreed that the canteen is clean and offers quality products. Fifty-four respondents agree with the statement. Forty-five responses showed a neutral view. While ten percent have an extremely adverse effect.

The Seth Kesarimal Porwal College is well known for its sports achievements. The next statement was about this. The views of parents about sports and recreation can be studied in the following graph

The college has proper sports and recreation facilities

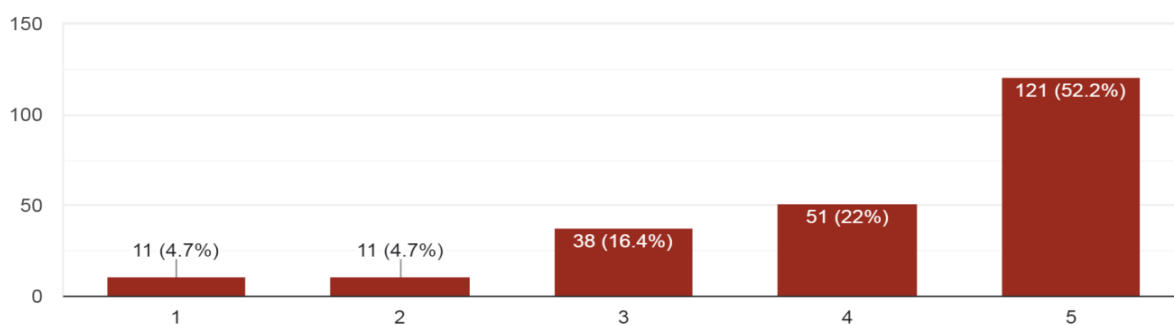

232 responses

It is clear that a maximum of one hundred and twenty respondent parents strongly feel that the college has proper sports and recreation facilities. Fifty-five respondents agree with the statement. While eleven respondents feel that these facilities are not adequate.

NSS & NCC units of the college are working efficiently

232 responses

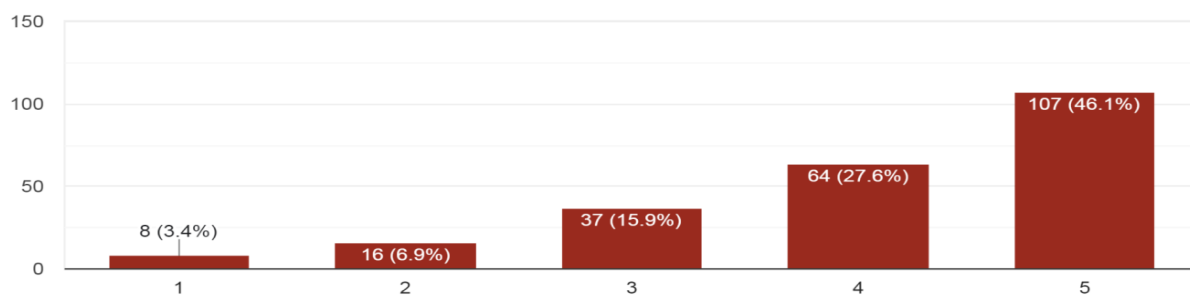

The NSS and NCC units are ancillary units that promote the overall development of the students. One hundred and twenty-one parents strongly feel that these units are working efficiently. Fifty-one parents agreed with the statement. Eleven parents strongly disagree with the statement.

The college has made efforts for the security of students. It includes CCTV cameras, security guards, etc. The views of parents are denoted below

The security arrangements of the college are efficient

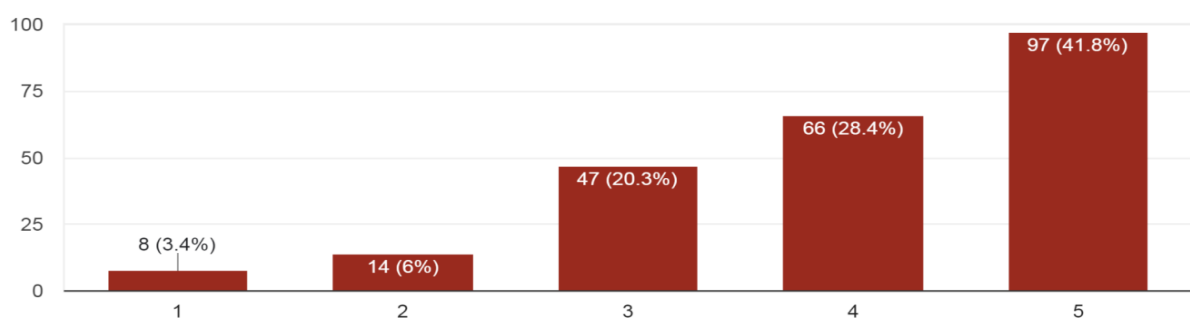

232 responses

According to the data collected maximum hundred and seven parents strongly agree with the statement. Sixty-four parents agree with the statement. Only eight have a strong negative opinion.

The college has proper counselling facility

232 responses

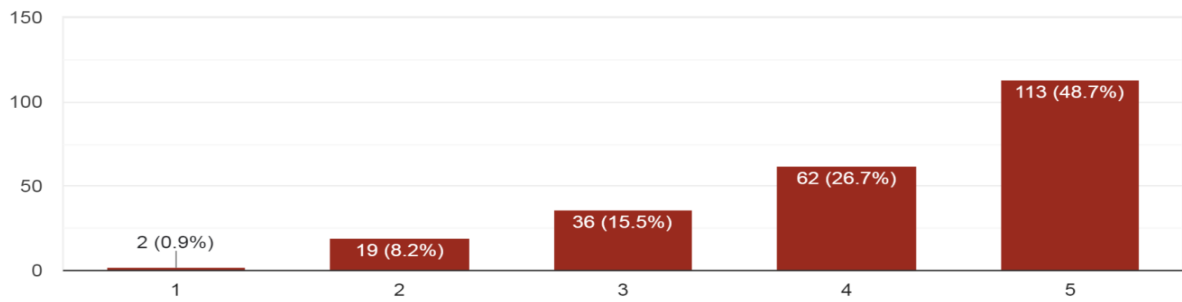

The above graph shows the opinion of parents regarding the counselling facility offered by the college. A maximum of ninety-seven parents have endorsed strong affirmation towards the counselling facility. Sixty-Six respondent parents have agreed with the statement. While few i.e. eight have put strong disagreement towards the statement.

In the winter season, the college arranges extracurricular activities for the students. The college has a proper committee that works for this. The opinion of parents on whether college authorities encourage students to participate in these extracurricular activities is judged in this statement.

College authorities encourage students to participate in Co-curricular activities

232 responses

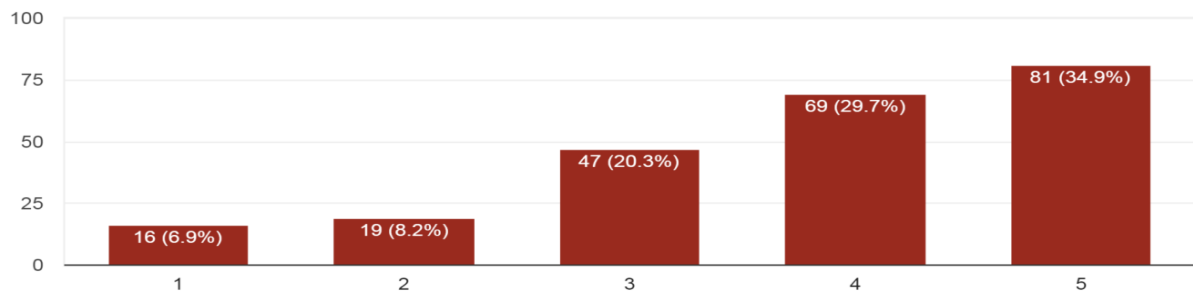

One hundred and thirteen parents strongly felt that there is enough encouragement. Sixty-two have agreed with the statement, while thirty-six respondents' parents have a neutral opinion.

The placement of students is an area of keen interest. The parents' opinion regarding this was checked in the next statement

College undertakes placement activities

232 responses

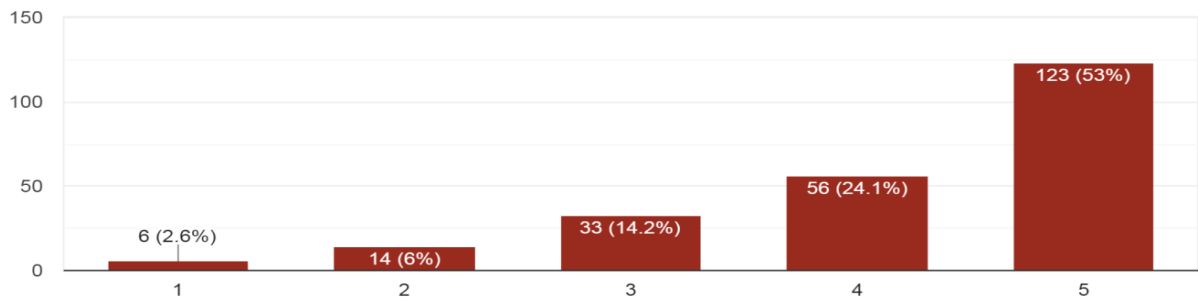

Eighty-one responses from parents strongly agree with the statement. Sixty-nine respondents agree with the statement. Forty-seven have neither positive nor negative opinions over it.

The COVID-19 pandemic has changed the whole educational scenario. Every college is making valiant efforts to protect its staff and students from this pandemic. Seth Kesarimal Porwal College also made appropriate arrangements. The efficiency of these arrangements from the parents' point of view was studied. The response was as under

The college has efficient COVID protection system

232 responses

Fifty-three percent of parents strongly agree with the statement. Fifty-six respondents' parents feel that the COVID protection system was efficient. On the other hand, only six respondents' parents feel that the COVID protection system was not efficient.

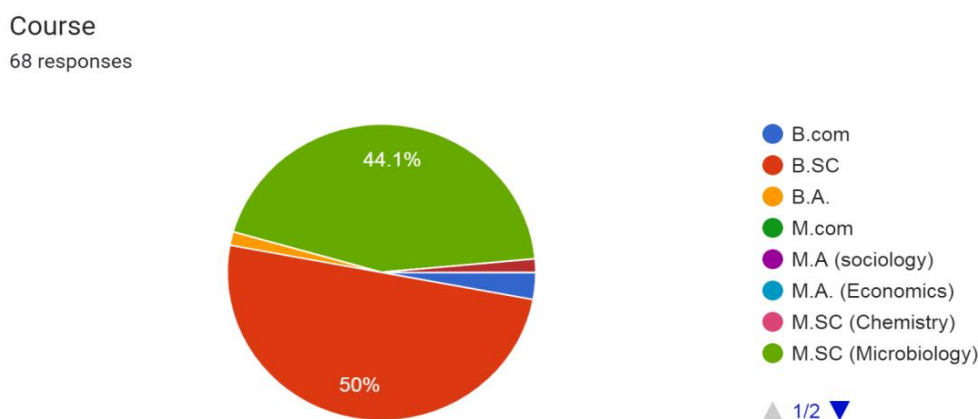

In the last segment, the suggestions were asked from the parent, the major suggestions are listed below

- ❖ Proper parking facilities for students should be provided.
- ❖ Canteen facilities should be updated.
- ❖ Washroom should be well developed.
- ❖ Ground and sports facilities should be developed.
- ❖ Placement activities need to be taken.
- ❖ Preparation of competitive examinations should be done.

Analysis of Alumni Feedback Form 2021 – 2022

Seth Kesarimal Porwal College has a glorious past of fifty-six years. Our alumni are the token of our success. The college has registered alumni. These alumni have arranged various activities in our institute. Hence it was felt to take feedback from our alumni. The feedback of alumni for the session 2021-2022 includes the response from sixty-eight respondents. The feedback is of three parts. In the first part, demographic information about the alumni was collected. In the middle portion, alumni were asked to put their views on various statements ranging from strongly disagree to strongly agree. The feedback ends with suggestions from respondents. The detailed analysis of alumni feedback is given below

In the beginning, the name and years of the passing of the respondents were asked. The next thing includes the class in which they were enrolled in the response is as below

Fifty percent of respondents belong to B. Sc. while others include arts, commerce, and various post-graduate courses.

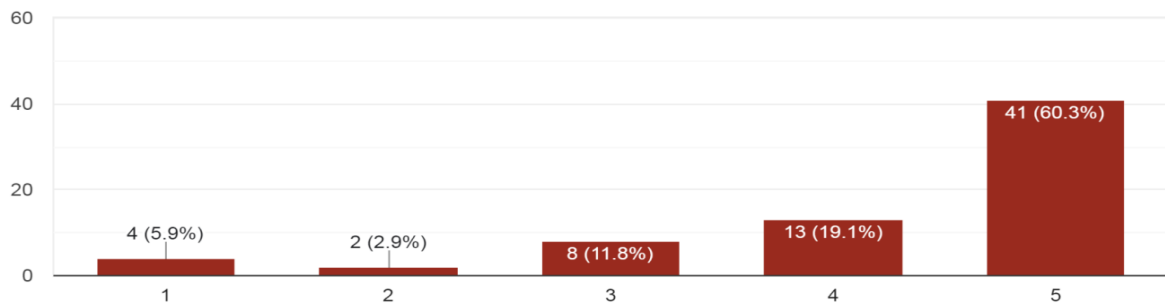

After this email address of respondents was asked. The present working organization was asked in the following portion. Most of the responses are working in nearby areas mostly in Nagpur. Many respondents stated that they are not working anywhere. In response to the designation, it was seen that those who were working are from the teaching fraternity.

After initial information, some statements were given to the alumni. They were asked to give their opinion.

The first statement was “Do you feel proud to be associated with Porwal college as an Alumni”. The response states that sixty percent of responses strongly agree with the statement. It is followed by thirteen percent of students who agree with the statement. The following graph shows the response

Do you feel proud to be associated with Porwal college as an Alumni?

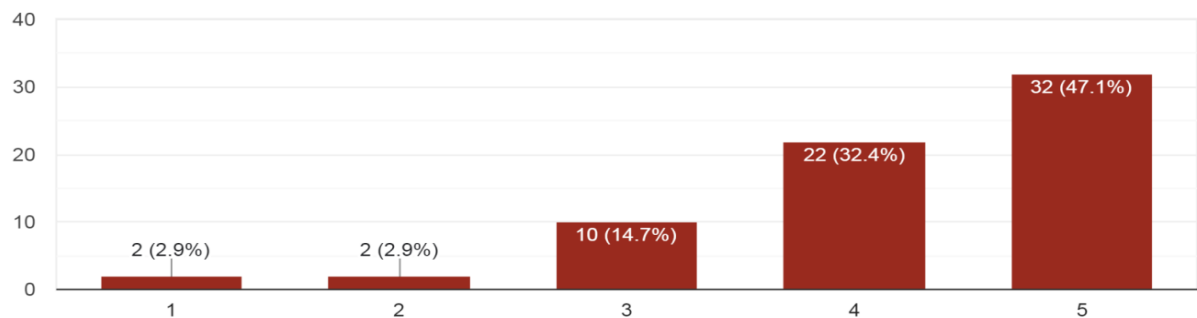

68 responses

All-round development is possible through extra-curricular activities, guest lectures, seminars, conferences, etc. The alumni's views on this are studied in the next statement

College had undertaken the various activities for the all round development of students

68 responses

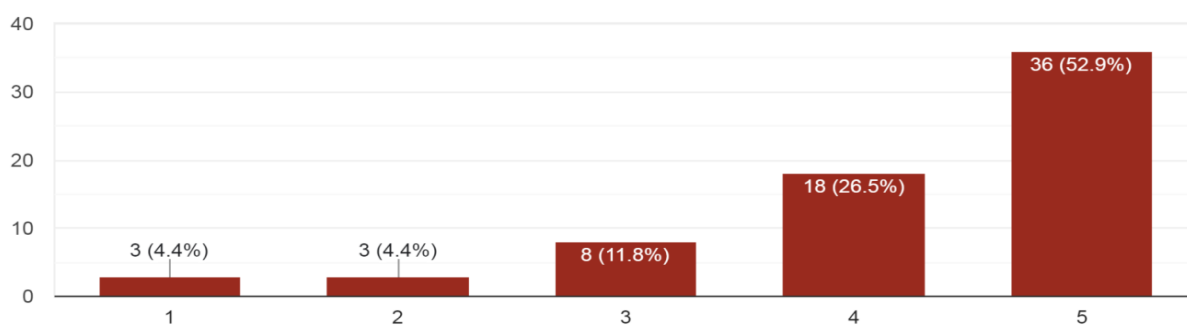

It was felt that a maximum of thirty-two students strongly agree with the statement. While twenty-two agrees with the statement. Mere two alumni have reported that they strongly disagree with the statement.

The willingness of alumni to contribute towards the development of the college was analyzed in the next statement. It was pleasing to see that maximum of fifty-four alumni either strongly agree or agree with the statement. The graphical representation is given below

You are willing to contribute for the development of college

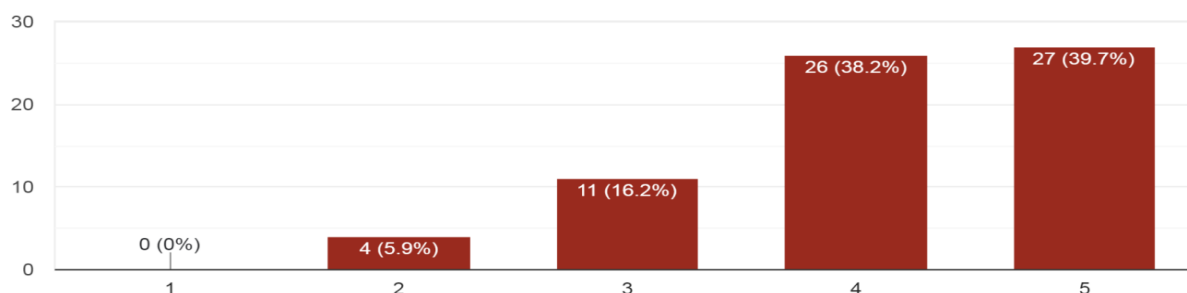

68 responses

The mechanism of grievance handling machinery was scrutinized in the next statement. It is seen that fifty-three respondents' alumni either strongly agree or agree with the statement. The response is given in the following graph.

As a student, your grievances were properly handled.

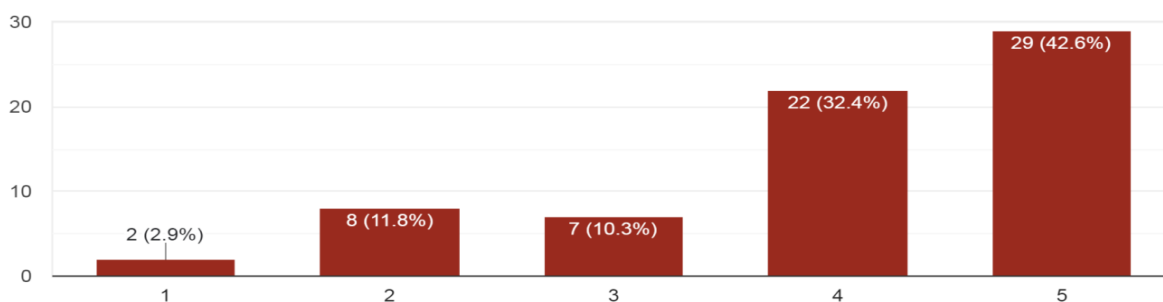

68 responses

The college has regular purchases of laboratories and equipment. It is known for its pivotal education to students from rural and poor economic backgrounds. The response is shown in the following graph

While studying in the college you were satisfied with the laboratories and equipments

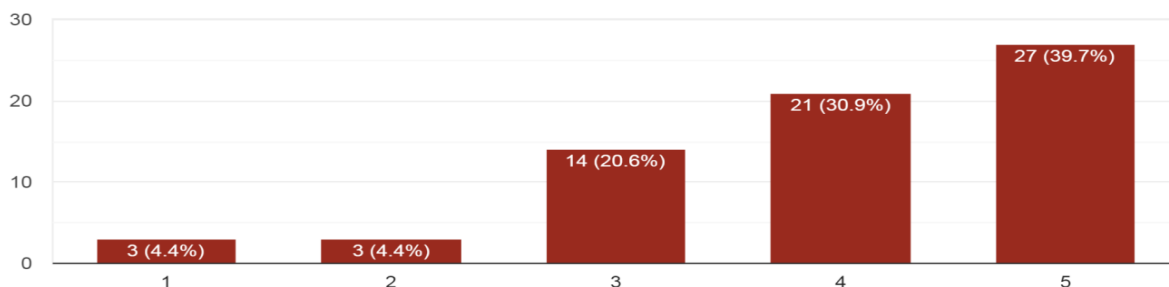

68 responses

It is clear that fifty-one alumni strongly agree or agree with the statement. Two alumni have stated that they strongly disagree with the statement, while seven alumni have a neutral view on this.

The library is the soul of any educational institute. The alumni's thinking on library facilities was sought in the next statement.

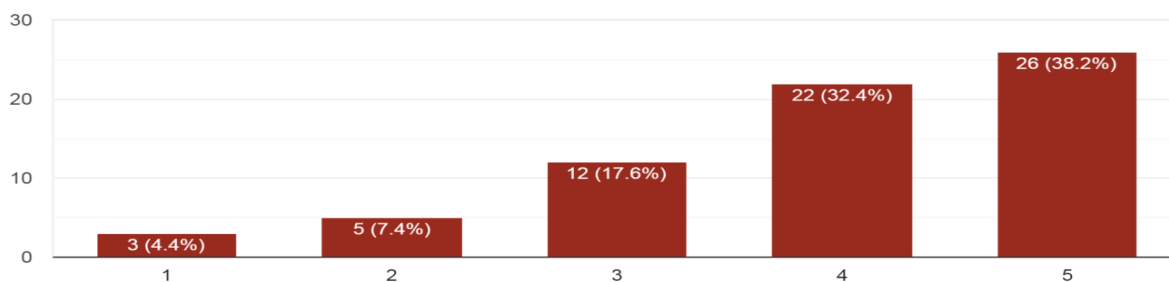

While studying in the college you were satisfied with the library facilities
68 responses

It is seen that a maximum of twenty-seven respondents strongly agree with the statement. While twenty-one agrees with the statement. Six alumni have reported negative feedback towards the library facility.

The Porwal College is well known for its sports and recreation facilities. The perception of alumni towards it is seen in the next statement.

While studying in the college you were satisfied with the sports and recreation facilities
68 responses

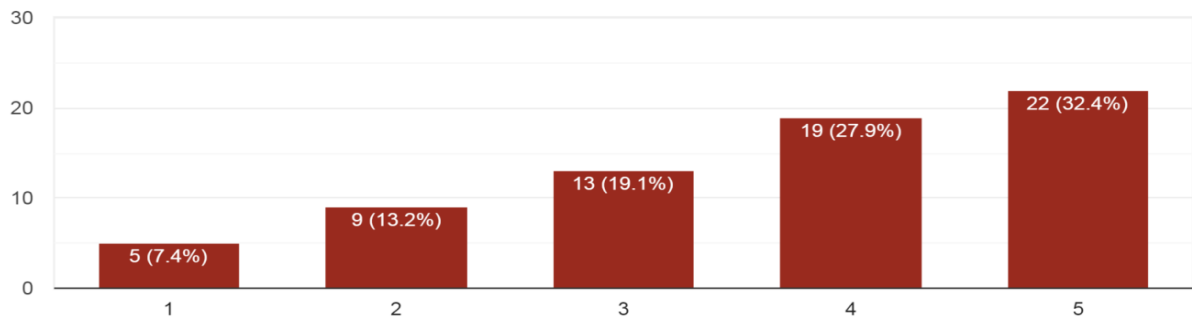

It is seen that a maximum of twenty-six responses reported a strongly agree response. Twenty-two has agreed with the statement. Three alumni have stated strong disagreement.

Our institute is a pioneer in imparting computer-related courses at UG and PG levels. It has also various computer-related facilities. The perception of alumni in this regard is described in the following graph.

While studying in the college you were satisfied with the computer facilities

68 responses

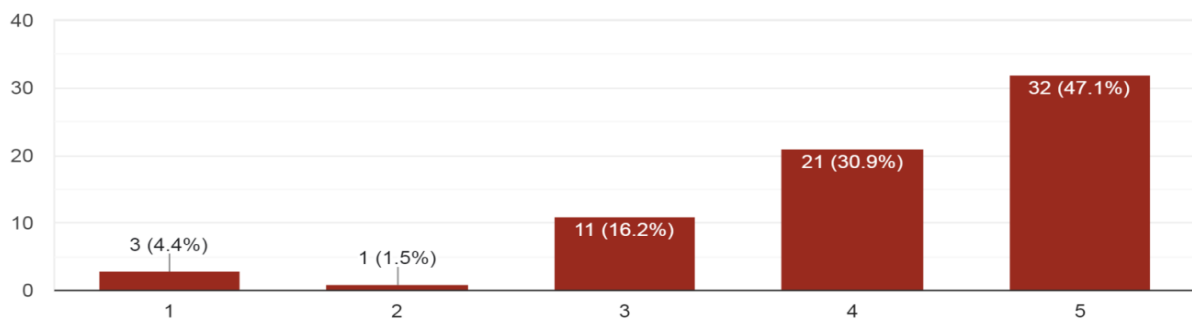

It is clear that the majority of twenty-two alumni have a strong agreement with the statement. Nineteen alumni agreed with the statement. Five alumni have strong disagreements over the statement regarding statement computer facilities.

The alumni's views on technical and theoretical knowledge given to them are studied in “While studying in the college you have obtained sufficient technical and theory knowledge”. The response is as under

While studying in the college you have obtained sufficient technical and theory knowledge

68 responses

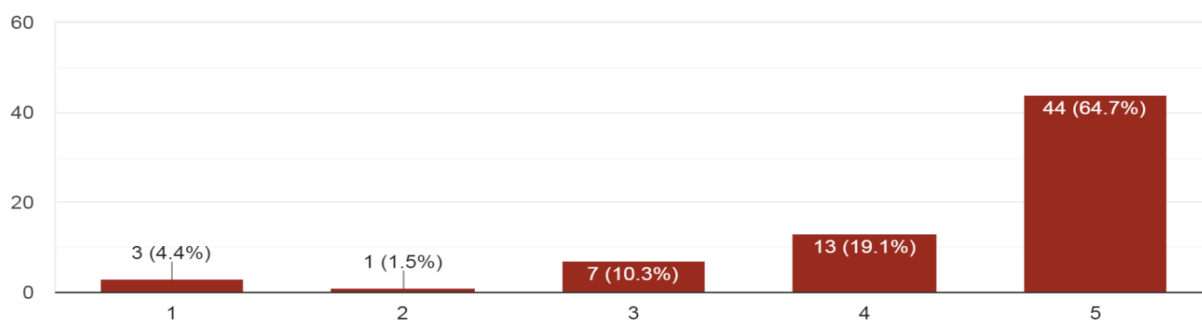

A maximum of thirty-two alumni have given strong agreement with the statement. Twenty-one alumni agreed with the statement. While eleven have a neutral view on this.

The alumni's views on the cooperation received by them from teaching and supporting staff were analyzed in the next statement.

As an alumni you were satisfied with the copoeration of teachers and support staff

68 responses

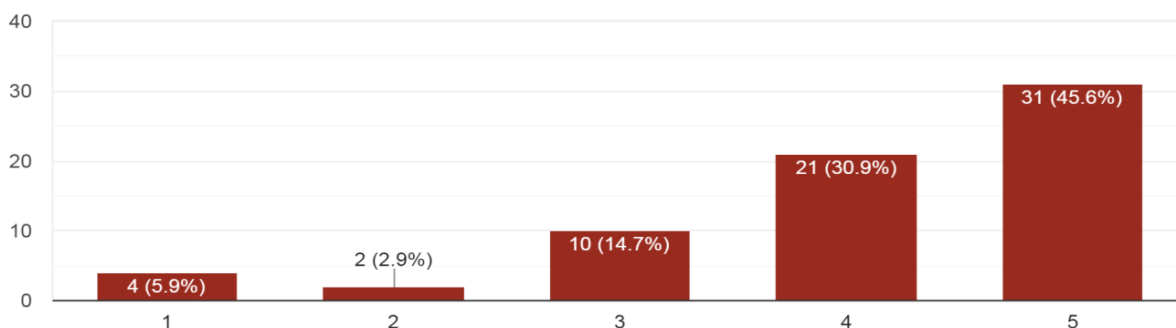

A maximum of forty-four alumni strongly agreed with the statement. Thirteen have agreed with the statement. While three respondent alumni have stated that they strongly disagree with the statement.

The relevance of education to the current job was judged in the statement “Education imparted in the college is useful and relevant to your present job”. The response is given in the next graph

Education imparted in the college is useful and relevant to your present job

68 responses

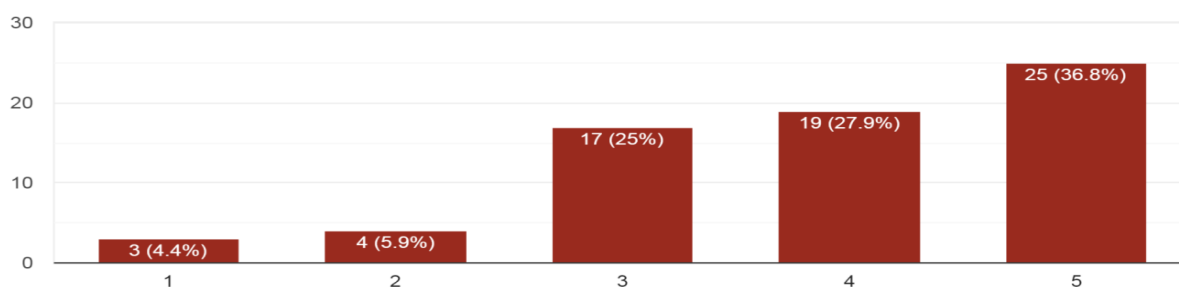

It is seen that thirty-one alumni strongly agreed with the statement. Twenty-one has agreed with the statement, while ten alumni have neutral views on this.

After seeking views on the various facilities present at the time when alumni were studying; the views of alumni on the progress made by the college in these facilities are studied in the next few statements. The first statement in this regard is “At present, there is an improvement in laboratories and equipment”. The response received on it is given below

At present, there is an improvement in laboratories and equipments

68 responses

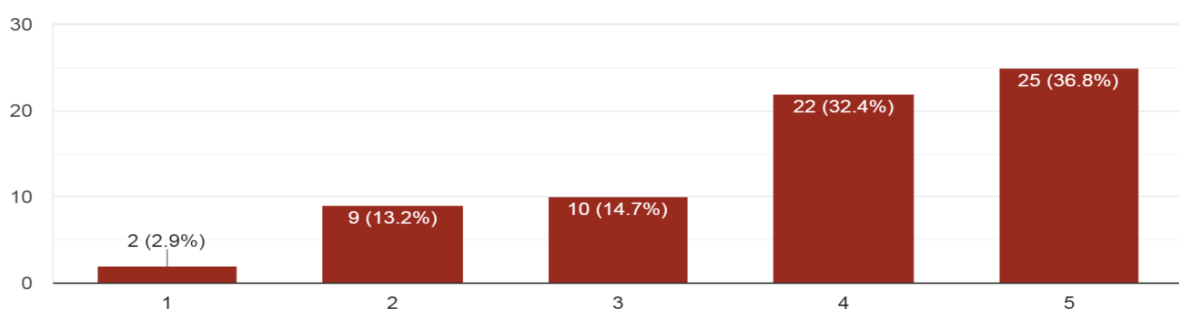

It is seen that twenty-five responses strongly agree with the statement. Nineteen have agreed to the statement. While seventeen have neutral views on this.

The next statement was “At present, there is an improvement in library facilities”. The response is given below

At present, there is an improvement in library facilities

68 responses

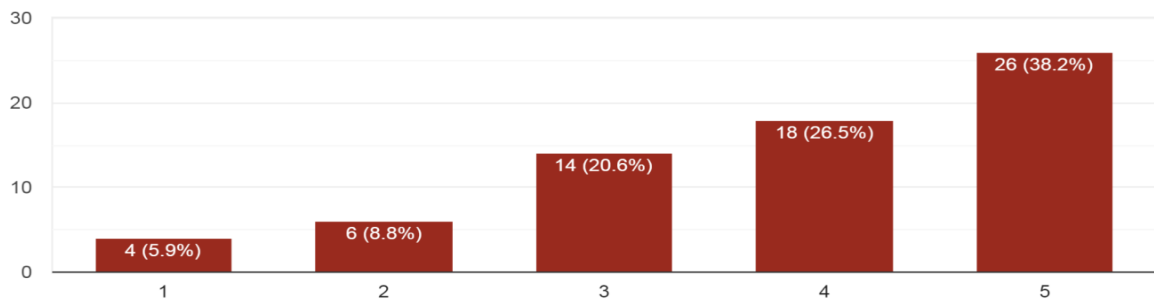

A maximum of twenty-five have stated that they strongly agreed with the statement. Twenty-two has agreed with the statement. Very few i.e. two have strongly disagreed with the statement.

The alumni's views on improvement in sports and recreation were analyzed in the next statement. It is seen that a maximum of twenty-six have strongly agreed with the statement.

Eighteen have agreed with the statement. Four strongly agreed with the statement.

At present, there is an improvement in the sports and recreation facilities

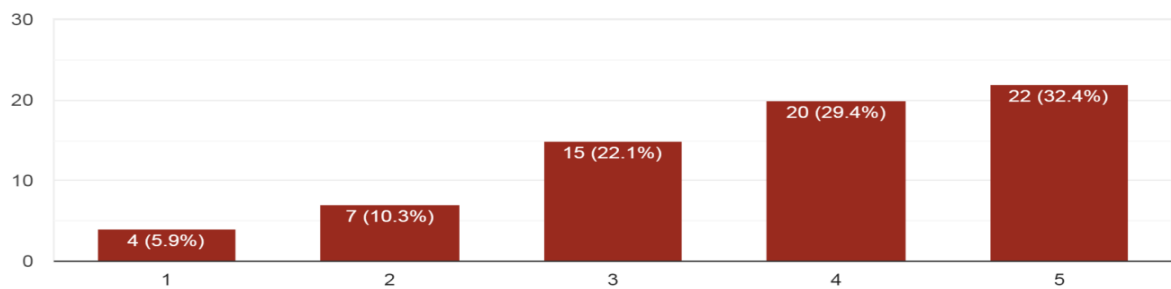

68 responses

The respondent's view on the improvement done by the college in computer facilities is seen in the next statement. The graph reflecting the response is given below

At present, there is an improvement in the computer facilities

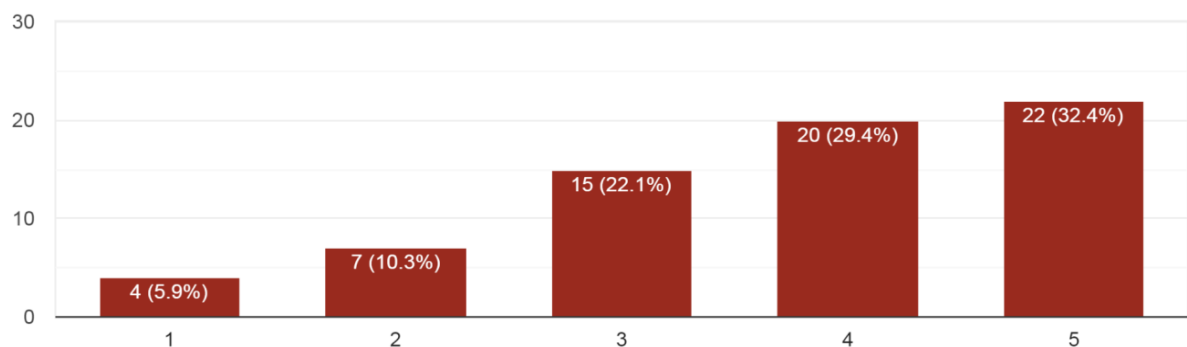

68 responses

Twenty-two strongly agreed with the statement. Fifteen responses have stated a neutral view on this. Four responses stated that they strongly disagree with the statement.

At present, there is an improvement in the computer facilities

68 responses

Twenty-two respondents strongly agree that the college has made improvements in computer facilities. Twenty alumni agreed with the statement. Fifteen have neither positive nor negative views on the statement.

After this, the alumni were requested to mention their special achievements. The special achievement mentioned by alumni were

2nd prize in power point presentation.

Best student award from MSI.

Got best volunteer award from NSS.

Got certificate of microbial food analysis.

In the next line, alumni were requested to write as to how they can help the college, the alumni stated that they will help current students in preparing for examinations, can give guest lectures, etc.

The Google form designed for collecting feedback from alumni ended with suggestions taken from alumni. The valuable suggestions received from alumni are listed below

- ❖ College must organised program for the awareness of future scope after graduation.
- ❖ College have to organise campus selection for students.
- ❖ College Laboratory facilities needs to be improved.
- ❖ College should carry 6 months internship to enhance students' practical knowledge.
- ❖ College should provide health facilities i.e. Gym.
- ❖ College must provide Wi-Fi facilities to students.
