Online Teaching and Guidance

2020 – 2021

The screenshot shows a Google Meet window with a presentation slide. The slide title is "Determination of wavelength difference of Na lines." and it lists two wavelengths: $\lambda_1 D_1 : 5890 \text{ \AA}$ and $\lambda_2 D_2 : 5896 \text{ \AA}$. The slide contains the following text:

- Two set of patterns fringes are produced.
- When fringes overlap path difference $2d=0$.
- Bright fringe of both pattern coincides.
- If M_1 is moved such that bright pattern of one fringe coincides with dark pattern of other. We observe minimum intensity.
- Move M_1 further Bright fringe of both pattern coincides.

Below the text, there are two equations:

$$2d = n\lambda_2 = (n+1)\lambda_1 \quad \lambda_2 > \lambda_1$$

And another equation for the order n :

$$n = \frac{\lambda_1}{\lambda_2 - \lambda_1}$$

The meeting details panel on the right shows 16 participants, including Priyanka Bhoyar (You), Aayesha Naaz, Akansha Singh, Akansha Thakre, Ishita Fule, Kshitij Bante, Neeta Gupta, and Roshnee Pandhare.

The screenshot shows a Google Meet window with a presentation slide. The slide title is "Basic Linux commands - Adobe Acrobat Reader DC (32-bit)". The slide contains the following text:

PowerPoint Slide Show - [C++] - Microsoft PowerPoint

Outside function as inline

We can define a member function outside the class definition and still make it inline by just using the qualifier inline in the header line of the function definition.

Example:

```
#include<iostream.h>
#include<conio.h>
class InlineDemo
{
    int a;
    public:
    void getdata(int n);
    void show();
};
inline void InlineDemo::getdata(int n)
{
    a=n;
}
inline void InlineDemo::show()
{
    cout<<"Value of a="<<a;
}
```

```
void main()
{
    InlineDemo obj;
    obj.getdata(10);
    obj.show();
    getch();
}
```

Output:
Value of a= 10

Online Bridge Course

Session -2020-2021

Aim- The bridge course aims to bridge the gap of basic knowledge of Botany. The students have passed online Std. XII Board exam and seeking the admission the undergraduate three year degree course. The syllabus of degree course (B.Sc.) which is University pattern differs with board syllabus and examination pattern. To fill up the gap of basic knowledge of the subject, the departmental aim is to conduct a bridge of 15 days duration for B. Sc. Semester - I students . Total 37 students were attended the course and 19 responses were registered.

Objectives:

- To understand the basic knowledge of the subject
- Students make familiar with plants and other branches of botany
- To improve the confidence in the subject
- To develop interest in the subject
- To improve level of understanding the flora

Duration : 15 days (16 October 2020 to 31 October 2020)

Syllabus :

- Concept & Importance of botany
- Introduction of 5-kingdom system
- Branches of the botany

Planning :

The extra theory classes (other than regular theory classes) of one hour duration has been conducted between are conducted online between 16th October 2020 to 31st October 2020. Initially, before commencement of course, a General knowledge test has been conducted. The same has been conducted after completion of course.

Identification of Slow and Advance learner

(a) Slow learners : Total 15to 20% students found to be slow learner
